*Proceedings of the Madras Government, Revenue Department,
12th October 1869.*

No. 152. Read the following letter from J. W. BREEKS, Esq., Commissioner of the Neilgherries, to the Acting Secretary to Government, Revenue Department, Fort Saint George, dated Ootacamund, 16th September 1869, No. 49:—

I HAVE the honour to forward Mr. McIvor's reply to Proceedings of Government, dated 23rd August 1869, No. 336.

2. Cinchonas are now so readily raised from seeds of which, as Mr. McIvor says, the quantity available is unlimited, that it seems to me hardly necessary to go to the expense of sending to Paupanassum a man specially trained to propagate from cuttings as suggested by the Board.

From W. G. McIVOR, Esq., Superintendent Government Cinchona Plantations, to the Acting Secretary to Government, Revenue Department, Fort Saint George, dated Ootacamund, 13th September 1869, No. 89.

WITH reference to the order of Government, No. 2,396, dated the 23rd August 1869, and paragraph 11 of the Proceedings of the Board of Revenue therein recorded, I have the honour to state, that it appears to me desirable that the cultivation of Cinchona should be continued at Paupanassum, and I shall gladly endeavour to procure the services of a man trained to the propagation of these plants, both by seeds and cuttings.

2. Perhaps it would be better to instruct the hill-men to rear seedlings, as we have now an unlimited number of seeds; this would be the most rapid and successful way of establishing nurseries.

No. 153. ORDER THEREON, 12th October 1869, No. 2,776.

Miscellaneous.

WITH reference to the opinion expressed by Mr. McIvor and concurred in by Mr. Brecks, the Government do not deem it expedient to incur the expense of sending a trained Cinchona Planter from Ootacamund to Paupanassum. Mr. McIvor will therefore forward to the Acting Sub-Collector of Tinnevely a supply of Cinchona seeds of the species best suited to an elevation of 3,000 feet, and inform that officer as to the proper method of raising them.
