No. 194. Read the following letter from the Acting Secretary to the Board of Revenue, to the Acting Secretary to Government, Revenue Department, dated Madras, 23rd October 1869, No. 7,297:—

I AM instructed, with reference to Government Order, 5th October 1869, No. 2,727, to state that no detailed orders on the subject were issued, the recommendations made by Dr. Day, and, with some exceptions, adopted by Government, being, it was considered, sufficiently definite.

2. Collectors will, however, be now requested to state what measures have been taken on the order of Government, which was communicated to them with Proceedings under date 20th August 1869, No. 6,242.

3. They will also state what pieces of water they propose to advertize for lease for the approaching fusly in accordance with Dr. Day's first proposal.

No. 195. ORDER THEREON, 19th November 1869, No. 2,989.

Miscellaneous.

THE Government observe that, in their Order, under date 30th April 1869, No. 1,185, they directed (paragraph 12) the Board of Revenue to carry into effect, from the 1st of July last, certain suggestions made by Dr. Day for the preservation of fish.

2. On the 28th of May the Board commented on these proposals, and requested permission to ascertain the views of the District Officers on the subject, before carrying the order of Government into effect.

3. The Government, however, in their Order, under date 25th June 1869, No. 1,812, observed that they saw no reason why the protective measures suggested by Dr. Day should be deferred, but permitted some of the details to be partially modified, as proposed by the Board.

4. On the receipt of this last communication it was clearly the duty of the Board to have immediately issued the necessary orders to Collectors, but this it appears has not been done. The Board will accordingly now be instructed to give effect to the orders which should have been brought into operation on the 1st July last.
