*Proceedings of the Madras Government, Revenue Department,
22nd November 1869.*

No. 222. Read the following Proceedings of the Board of Revenue, dated 9th November 1869, No. 8,293:—

Read the following Budget Estimate of Local Fund Receipts of the Neilgherry district for 1870-71 with four enclosures.

The foregoing papers are submitted for the approval of Government with reference to paragraph 1 of their Order, dated 16th March 1869, No. 711.

2. Part I. of the Road Fund Budget contains only two works with an aggregate allotment of Rupees 1,350. The first work is an unsanctioned one; the second cannot be treated as a new work, nor does it appertain to the head "Communications." It is simply a Repair work, and should appear under the head "Miscellaneous Public Improvements." The Board have accordingly transferred the item to Part II. of the Budget.

3. Part II. of the Budget contains two items—the first, with an allotment of Rupees 5,710, being the estimated cost of certain Repair works under Rupees 2,500 each, as per particulars furnished at page 50 of the printed Budget for 1869-70, and the other is for an additional grant required for a road, the usual maintenance allowance forming a portion of the sum of Rupees 5,710.

4. The Board observe that each year's Road Fund Budget must be complete in itself and must contain full particulars of both new works and repairs proposed to be executed, except works estimated to cost below Rupees 250, which should be entered without further specification than—

"Petty New Works."

"Petty Repairs."

As Part II. is not in a shape to admit of its being laid before Government, the Board have caused it to be revised in their office. The works and allotments shown in the revised document are the same as those appearing in the Budget of 1869-70, with one exception, viz., that the maintenance grant for the fifth item (Kotagherry Ghaut Road) has been raised from Rupees 550 to Rupees 1,540. The increased allowance has been sanctioned by the Board for the current year on the recommendation of the Superintending Engineer supported by the Commissioner.

5. In the Abstract of Receipts and Charges, the expected income of the fund is given as Rupees 11,900.

6. Under the head "Expenditure proposed" a sum of Rupees 357 is provided on account of the establishment of Lascars. This is incorrect. It appears to be the total cost of travelling allowance of Maistries and establishment of Lascars. The necessary alteration has accordingly been made.

7. The allotments proposed for contingent charges of the Public Works and Revenue Departments have been reduced to the scale fixed by the Board, the necessity for the larger assignment not being shown.

8. The cost of Public Works supervision is given as Rupees 670 instead of Rupees 770. The correct amount has been inserted.

9. According to the foregoing alterations and additions the proposed expenditure amounts to Rupees 11,900, which leaves no balance.
