*Proceedings of the Madras Government, Revenue Department,  
5th March 1869.*

No. 106. Read the following Proceedings of the Board of Revenue, dated 26th January 1869, No. 487:—

Read the following letter from the Collector of Bellary, to the Acting Secretary to the Board of Revenue, dated Camp at Camalapur, Talook Hospett, 4th December 1868, No. 292.

As directed in the Board's Circular memorandum, No. 987, dated 4th October 1866, I have the honor to submit, for the approval and sanction of the Board, plans and estimates for the construction of Treasure vaults in the Talook Cutcherries of Huvinhudgaly and Hospett. These are the only Cutcherries in the district constructed on what was, at the date of the Board's Circular, the standard plan.

2. I have to apologize for the delay which has occurred in the submission of the above. They were received from the Superintending Engineer in February last, but appear to have been mislaid in the office, and it was only when going through the list of arrears of correspondence the other day, that the subject attracted my notice.

ENCLOSURES Nos. 1 and 2.—Plans.

ENCLOSURES Nos. 3 and 4.—Estimates.

ENCLOSURES Nos. 5 and 6.—Specification Reports.

THE plans and estimates, amounting to Rupees 459, for the construction of Treasure vaults in two Talook Cutcherries of Bellary, will be submitted for the sanction of Government. The requisite funds for the work should be provided from the Public Works Department.

No. 107. ORDER THEREON, 5th March 1869, No. 566.

Miscellaneous.

According to the Board's Standing Order No. 987, based on the Order of Government, dated 18th September 1866,

No. 2,508, the vault is to be lined with cut stone, with a clear space inside, of feet 11-9 long by feet 5-9 wide and feet 6 deep; but the specifications now submitted provide for only 3×3×5 for each of the vaults, and the side walls and floor of that in the Talook Cutcherry at Hospett is to consist of brick-in-chunam. The Board of Revenue will be requested to furnish an explanation for this deviation from the instructions contained in the Orders alluded to.

(True Extract.)

(Signed) R. A. DALYELL,  
Acting Secretary to Government.

To the Board of Revenue.  
„ the Public Works Department.

Ed. G. A. Turton.

*Specification to accompany Estimate for constructing  
a Treasure Vault in the Ruby Catchment at Naspato*

Amount of Estimate Refers 223-

1. The dimensions of Vault to be 3 feet by 3 feet by 5 feet in depth. Laid flat and floor of brick in chamber the latter resting on a bed of concrete 1 ft. in depth, the whole to be sunk below the floor of the adjoining room.
2. The door will be of iron plate 3/4 an inch thick and divided into 12 leaves having iron hinges let into the masonry side walls. The door will be secured by bolts and staples.
3. The structure also allows for entering the prison reasoner into a prison, by removing the arch, and raising the opening at the top end of the room.

Specification to accompany Plan and Estimate  
for a Prison Vault to be built in the Government  
Siding, Butchery, District Bellary.

The vault will be constructed with dressed  
granite stone in Churam, resting on a bed of  
concrete 1 foot in thickness; the inner dimensions of  
the vault will be 3' x 3' x 5'.

The iron door to be made of  $\frac{1}{2}$  inch plate iron,  
and when closed will rest on a cross beam of  $\frac{1}{2}$  inch  
plate iron, to which on each side a 3" Square L iron  
will be rivetted; the lid will be divided into four flaps  
two on each side, and each flap to have two hinges, to be  
raised or lowered by means of eye bolts of  $\frac{1}{2}$  inch rod iron, two  
hasps and staples will also be fixed to lock the door, the lower  
portion of the hinge will be made of 1" Square bar iron, and let  
into the wall and secured in it by passing in molten lead into  
the hole made to receive the hinge; the upper portion of the  
hinge will be made of  $\frac{1}{2}$  inch plate iron, and rivetted  
to the lid; the rivets will be made of  $\frac{3}{4}$  inch rod iron.

PROCEEDINGS of the MALRAS GOVERNMENT.

Under date, the 5<sup>th</sup> January 1867

Read the following. No. of the 13<sup>th</sup>

Revenue

Submitting for sanction of  
the Revenue and estimates amount  
ing to Rs. 109 for construction  
of treasure vaults in Taluk Cutcher  
near of Shivinadgally and Thupatt  
in Bellary District.

(H.E. 26 Jan'y 67)

According to the  
standing order No. 987, bearing  
the Order of Govt. dated  
Sept. 1866, No. 2508, the vault  
is to be lined with cut stone  
with a clear space inside,  
feet 11-9 long by feet 5-9  
and feet 6 deep, but the  
specifications now submitted  
vide for only 3x3x5 for  
of the vaults, and the side  
and floor of that in the  
look Cutcher at Th  
is to consist of brick m  
churnam. The Board

At a visit lately made  
to the new talook, <sup>Scutcher</sup> ~~Scutcher~~  
Siroovoolloor, by Mr. R. H. <sup>Scutcher</sup> ~~Scutcher~~  
Mr. Boness from Calcutta, & other  
gentlemen, it was discovered  
that the system of  
treasure vaults in talook  
Cutcher, has many and  
various, what they are  
exactly I cannot say, but  
however he well to pause as  
the two vaults  
under notice
