*Proceedings of the Madras Government, Public Works Department,
6th March 1869.*

No. 190. Read the following Endorsement of the Chief Engineer for Irrigation, dated Fort St. George, 9th February 1869, No. 151 :—

Read the following letter from the Acting Superintending Engineer, 4th Division, to the Chief Engineer for Irrigation and Joint Secretary to Government, Public Works Department, dated Madras, 6th February 1869, No. 5,334.

- 1 Plan.
- 1 Estimate.
- 1 Original letter.
- 1 Petition with translation.

Letter from Mr. Booth, No. 96, dated 3rd July 1868.

Petition, with translation, from Ragavachary, Monegar, dated 22nd June 1868.

1. In submitting a plan and estimate for constructing a calingulah in the bank of the Poondy Poothary tank, amounting to Rupees 800, together with correspondence as per margin from the Range Officer, Mr. Booth, in whose limits the work is situated, I have the honour to request the sanction of Government for the expenditure incurred.

2. I consider that the proper course under other circumstances would be to send up the bill of actual costs as the work is completed, but the Monegar of the village undertook the execution of the calingulah without sanction, and it was completed in 1867.

3. Colonel Boileau has allowed the matter to lie over, but as it appears that he and the Collector both approved of the work, and the Range Officer vouches for the satisfactoriness of the execution both as to plan and material used, I trust that the Government will accord their sanction at this late hour to the outlay.

From the correspondence attached to the foregoing letter from the Superintending Engineer, 4th Division, it appears that an estimate, amounting to 800 Rupees, was prepared under the orders of the Superintending Engineer for a calingulah to the Poondy tank, in the Mahindravady channel, which leads from the Palar Anicut, and that the Monegar of the village undertook to carry out the work, and to wait for payment until such time as the work was sanctioned.

2. This was an informal proceeding, but as it appears that the work was much needed to prevent wastage of water from the tank, and that the work has been carried out in a perfectly satisfactory manner, and in accordance with the plan and estimate prepared by the Range Officer, I would beg to recommend the outlay incurred for the sanction of Government.

(Signed) J. C. ANDERSON, Colonel, R. E.,
Chief Engineer for Irrigation.

No. 191. ORDER THEREON, 6th March 1869, No. 735.

IRRIGATION, No. 10.
