Proceedings of the Madras Government, Revenue Department, 13th May 1869.

No. 313. Read the following Proceedings of the Board of Revenue, dated 23rd April 1869, No. 2,762 :—

Read the following letter from the Collector of Tanjore, to the Acting Secretary to the Board of Revenue, dated Combaconum, 23rd March 1869, No. 50.

I HAVE the honor to submit for sanction an estimate, with a plan, amounting to Rupees 3,200, for improving road No. 40 from Cootalum to the Lower Coleroon Anicut.

2. The amount for the estimate will be provided from the District Road Fund early next year.

3. The report of the Superintending Engineer on the estimate in question is herewith forwarded for information.

ENCLOSURE No. 1.

From the Superintending Engineer, 6th Division, to the Collector of Tanjore, dated 18th March 1869, No. 1,346.

I HAVE the honor to enclose an estimate of Rupees 3,200 for improving road No. 40, which connects road No. 2 at Cootalum with Trunk Road No. IX. near the Lower Anicut. I have been very lately over the road, and there is no doubt that the road cannot be rendered passable during wet weather unless well sanded ; for this the estimate allows, as also for raising and widening in a few places where the road embankment is but little above the level of the country.

1 Plan.
1 Estimate.
1 Appendix.

2. New culverts are required in the place of existing works which are beyond repair, and one new culvert is required to pass drainage across the road. Rupees 721 provide for these and Rupees 524 provide for repairing and plastering forty-eight road tunnels and the bridges noted in the margin. As this is the season for collecting sand and also for repairing masonry works, I would suggest that the estimate should be sanctioned at once, and funds may be provided for it in 1869-70.
