No. 538. Read the following letter from the Acting Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 7th May 1869, No. 781:—

1 Plan.
1 Estimate.

I HAVE the honour to enclose a plan and estimate amounting to Rupees 3,800, for making an additional enclosure for storing iron on the North Beach, Madras, for the use of the Sea Customs Department, prepared in communication with the Collector, and called for in G. O., No. 311, of the 1st January 1869.

2. The estimate not only provides for the enclosing wall, but for a gate-keeper's shed and a new Police Tannah, to take the place of the existing one, which will be brought within the site of the new enclosure.

3. The cost is divided as follows:—

Enclosure wall	Rupees	1,950
New Police Tannah	,,	1,130
Alteration to the present Tannah	,,	140
Porter's lodge	,,	460
Road on north of enclosure	,,	120
	Rupees	3,800

4. The Acting Commissioner of Police, Captain Tennant, has no objection to the removal of the Tannah, and he wishes a new station, both for the Marine and Town Police, to be built opposite to Messrs. Dymes & Cos'. premises.

5. I have authorized Captain Goddard to proceed with the building of the wall in anticipation of the sanction of Government, as Mr. Blair states the work is emergently required.

No. 539. ORDER THEREON, 25th May 1869, No. 1,696.

CIVIL WORKS, No. 100.

IN Proceedings of the 20th January 1869 the Government approved of the erection of an enclosure and certain other buildings required for providing additional storage-room for iron at the Madras Sea Custom House. The Superintending Engineer of the 4th Division now submits an estimate of Rupees 3,800 for these works, including a new Police Station which will be built outside the enclosure, the existing one being brought within it, and he reports that the arrangement has met with the approval of the Acting Commissioner of Police.

Proceedings of the Madras Government, Public Works Department,
25th May 1869.

2. The Government sanction the estimate, and the necessary funds will, if possible, be provided when the Superintending Engineer's statements of demands from the Reserve, which are now under consideration, are disposed of.
