*Proceedings of the Madras Government, Revenue Department,
30th June 1870.*

No. 432. Read the following Proceedings of the Board of Revenue, dated 9th April 1870 :—

Read the following letter from the Consulting Architect to Government, to the Secretary to the Board of Revenue, dated Madras, 7th March 1870, No. 425.

In compliance with G. O., No. 1,721, dated the 27th May 1869, I have the honour to transmit you a standard design for a Sub-Collector's Cutcherry suited to the climate of Central India and the East Coast.

2. The probable cost of the building will be about Rupees 11,000.

SUBMITTED for the approval of Government, with reference to G. O., 23rd February 1869, No. 580.

2. The Board are of opinion that the design is admirable.

No. 433. ORDER THEREON, 30th June 1870, No. 1,005.

Miscellaneous.

THE plan submitted with the foregoing Proceedings is forwarded by the Board with reference to the G. O.,

under date 23rd February 1869, No. 580, Public Works Department, in which Mr. Chisholm was requested to communicate with the Board regarding the erection of a suitable office for the Sub-Collector at Tellicherry.

2. The Right Honourable the Governor in Council is not of opinion that the plan is adapted to the climate of the Western Coast, the building not being sufficiently protected from the weather, though it may well be adopted as a standard plan for Sub-Collector's offices in the Central and East Coast Districts as apparently intended by Mr. Chisholm. Before sanctioning the plan as a standard, however, the Government must wait until funds are available and the suitability of the design can be practically tested in one or two instances. They are apprehensive that the windows of the Court-room will admit too much glare and heat.

3. With these remarks the plan will be returned to the Board of Revenue.

FOR ORDERS.

There does not seem to be any place in which Prisoners awaiting trial from day to day can be kept.

He are not likely to be friends yet are hostile. I would expect to be successful in the plan - with the above exception - but try it in the first instance where

Would not the prisoner under
trial be kept at the Police
Station House at night. The
prisoner would wait in the
warden's during the day.
I like the plan except

that, as appears to me, there^{3.}
is no shade for the windows of
the parlour if that
room runs up to the roof,
two stories deep. No.
The Plan might
be brought into conformity.

of the Bd of Reading
(G. E. G. April 1870) -

1. The plan submitted
with the foregoing Proceedings
is forwarded by the Board
with reference to the
G. O. under date 23 Feb
1869 No 580 P. W. D in which
Mr. Clissholm was requested
to communicate with
the Bd regarding the
erection of a suitable
Office for the Sub Col.
at Titchbury.

2. The Rt Hon^{ble} the Gov^r in
Council is not of opinion
that the plan is ^{adapted to the} suitable
for the Western Coast, the
building not being sufficiently

protected from the
weather, though it
may well be adopted
as a standard plan
for Sub Collector Offices
in the Central Bush
Coast District as
apparently intended
by W. Chamberlain, &
sanctioning the plans
as a standard house.
The Govt desire to see
a building erected in
order that they may
judge whether it is
practically a suitable
design.

3 With these remarks

I would say
must wait until
funds are available
and the suitability
of the design can be
practically tested
in one or two instances.
They are a little hesitant
that the hindroos for
the Court room will admit
too much glare & heat

The plan will be returned
