Proceedings of the Madras Government, Revenue Department,
8th August 1870.

No. 112. Read the following letter from the Conservator of Forests, to the Acting Secretary to Government, Revenue Department, Fort Saint George, dated camp at Ootacamund, 15th June 1870, No. 2,172:—

With reference to paragraph 5 of the G. O., No. 706, of the 14th of May 1870, I have the honour to inform you that I only wished to point out how admirably the Cinchona tree grew in Wynaad in case its extended cultivation in this quarter might at any future time seem desirable; it is, however, probable that the area now under cultivation on the Neilgherries is sufficient. At the same time I may draw attention to the fact that a large plantation in the vicinity of Manantoddy would be a great boon to the surrounding Coffee districts in the Wynaad and Coorg, where fever is so very prevalent, and that fine sites are available both on bamboo land and heavy forest.

No. 113. Order thereon, 8th August 1870, No. 1,190.

Forests, No. 4.

The Government observe that in propagating the growth of Cinchona, their object (with the single exception of the plantations on the Neilgherries) is not the formation of plantations, but the introduction of the tree into as many districts as possible. This object has already been attained in the Wynaad, where the tree is grown by planters.

No. 1190

PROCEEDINGS of the MADRAS GOVERNMENT.

Under date the 8th August 1870.

Read the following. letter from the Offg. Conservator of Forests

Replies to para 5 of G.O. No. 706 of 14th May 1870. regarding cultivation of Cinchona in certain districts. } M. G. 15 June 1870 No. 2172.

The Government observe that in propagating the growth of Cinchona their object (with the single exception of the plantations on the Neilgherries) is not the formation of plantations but the acclimatisation of the tree in as many districts as possible. This object has already been attained in the Wynad where the tree is grown by planters.
