Not to be folded or roughly handled

*Proceedings of the Madras Government, Revenue Department,
14th September 1870.*

No. 194. Read the following Proceedings of the Board of Revenue, dated 19th August 1870, No. 5,379:—

Read the following letter from the Acting Collector of Bellary, to the Acting Secretary to the Board of Revenue, dated 23rd July 1870, No. 262.

With reference to the correspondence noted in the margin I have the honour to state that the sum of Rupees 1,005 was collected from the Dasavandum Inamdars of Budiguddapully, a hamlet of Badaly, in the Talook of Hindupur, for the repair of a Dasavandum tank in the first-named place.

2. This sum was credited to Public Works Department and the circumstance intimated to the District Engineer in a letter to his address, dated 6th November 1862, but no steps have ever been taken towards the repair of the tank.

3. On a complaint made to me at the time of the settlement an inquiry was instituted, and the Acting Head Assistant Collector now reports that the tank is in need of immediate repair.

4. The Superintending Engineer at my request submits the enclosed estimate for Rupees 1,000. I beg that the Board will be good enough to obtain early sanction for the disbursement of that sum.

ENCLOSURE No. 1.—Estimate.

The estimate for the repair of the Dasavandum tank, received with the foregoing letter, is submitted to Government with the request that the sum of Rupees 1,005 actually collected from the Inamdar and credited to Public Works Department in 1862 may be placed at the disposal of the Superintending Engineer with a view to the necessary repairs being executed at an early date.

2. The repairs of the tank having been lost sight of during the last eight years, although the requisite sum had actually been paid into the Treasury, it seems in every way desirable that no further delay should be allowed to occur.

No. 195. ORDER THEREON, 14th September 1870, No. 1,461.

Irrigation, No. 2.

RESOLVED that the Superintending Engineer, 3rd Division, be instructed through the Public Works Department to carry out the repairs provided for in the estimate submitted with the foregoing Proceedings *at once*. Should there be any difficulty in meeting the charge from the ordinary allotment for Agricultural repairs, the amount will be advanced, leaving it to be determined later in the year how it shall be adjusted.

(True Extract.)

(Signed) H. E. STOKES,

Under-Secretary to Government.

To the Board of Revenue.
„ the Public Works Department.
„ the Accountant-General.

Exd. A. S. Rodgers.

No 2595 for order

It is submitted that immediate orders should may be issued through the P.W. D to the Supd Engineer to carry out the required repairs at once, leaving it to be determined later in the year how the charge is to be met, should he be unable to allot the amount from the provision in his budget for "Agricultural Repairs." It is of far more consequence
