Proceedings of the Madras Government, Revenue Department, 7th October 1870.

No. 34. Read the following Proceedings of the Board of Revenue, dated 12th September 1870 :—

Read the following letter from the Collector of Kurnool, to the Acting Secretary to the Board of Revenue, Madras, dated Kurnool, 2nd September 1870, No. 284.

I HAVE the honour, with reference to my letter, No. 261, dated 13th August 1870, regarding the breaches in the irrigation canal, to inform you more in detail concerning the breaches which were made in the canal on the 7th August 1870.

2. At first only five breaches were reported between the anicut and the Hindry aqueduct, a distance of 18 miles; I find now there are actually twelve according to the subjoined statement :—

	Breaches.	Largest	Smallest
		Feet.	Feet.
Between the anicut and 5 miles 30 chains	7	80×60	8×20
At 5 miles 30 chains	1	143×100	
Between 5 miles 30 chains, and 5 miles 52 chains	1	27×52	
,, 5 ,, 52 ,, ...	1	100×60	
,, 9 ,, 2 ,, ...	1	120×55	
,, 9 ,, 34 ,, ...	1	200×160	

3. This does not include the breach on the south of the Hindry aqueduct, or any of those further down the canal, the information regarding which I hope to place before the Board shortly.

4. The Chief Engineer informs me that there will only be irrigation for about the first 10 miles and from the Tangadancha tank, and has requested me to inform the ryots at other places down the canal that their best course will be to grow dry crops this year.

5. This calamity, added to those of former years, will render the ryots doubtful of the advantage to be derived from the canal, and shake their confidence in its success for a great number of years.

SUBMITTED for the information of Government in continuation of Board's Proceedings, 18th August 1870, No. 5,365.

ORDER THEREON, 7th October 1870, No. 1,518.

No. 35. ORDERED to be recorded.

Miscellaneous.

(True Extract.)

(Signed) R. A. DALYELL,
