*Proceedings of the Madras Government, Revenue Department,  
18th November 1870.*

No. 247. Read the following Proceedings of the Board of Revenue, dated 3rd October 1870, No. 5,969 :—

Read the following letter from the Officiating Collector of Nellore, to the Acting Secretary to the Board of Revenue, dated 13th August 1870, No. 2,075.

I HAVE the honour to enclose plan of a choultry, proposed to be erected at the foot of the Sangam hill on the Dornal road, received from the Nellore Tahsildar, with Urzi, dated 9th December 1869, No. 1,187-4,159.

2. One Akkarazu Ramaya, a resident of Sangam, proposes to construct this choultry. The Assistant Collector, Mr. Mackenzie, inspected the spot on the 23rd June last, and reports that "the site is well chosen. Wayfarers from Atmakur and Udayagiri can halt there before climbing the Sangam hill. It is close to the road on barren ground, unfit for cultivation. Laterite and timber have already been collected, and a good well dug with a flight of stone steps all round. The applicant promised to dig another, if one well were not sufficient."

3. From the Nellore Tahsildar's Urzi, No. 68-225, dated 15th January 1870, it appears that the ground selected for the choultry is demarcated as No. 190, measuring 1,284.81 acres. The Tahsildar recommends that 6.40 acres may be allowed for the choultry, and 37.40 acres free of assessment for a tope, which the applicant proposes to plant.

4. The applicant has given a statement in writing, binding himself to plant 2,000 trees in the above extent of 37.40 acres within five years, from Fasli 1280 to 1284; to use the produce of the trees, when they begin to bear fruit, for the benefit of the choultry; and to pay the full taram assessment of the land for the above-mentioned five years, in the event of his failing to plant it out fully within the period named.

5. There are two endowed choultries, one in the village of Sangam itself, about two miles from the proposed site, and another at Padamatipalem, about six miles from the same. These two choultries are, however, on the old road. Travellers now go by the new road, and seldom resort to the old line. About ten miles from the proposed site there is also another choultry in Buchireddipalem on the new line. This is not endowed.

6. In his letter, dated 1st August 1870, No. 284, the Acting Head Assistant Collector Mr. Knox, who has seen the locality, and knows it well, states that it would be a most desirable situation for a choultry.

7. The land selected for the choultry and tope being at the foot of a hill, and unfit for cultivation, I beg to recommend that 6.40 acres may be allowed for the choultry free of assessment, and 37.40 acres granted for a public tope under the Rules prescribed in Standing Order No. 121.

8. The two choultries of Padamatipalem and Buchireddipalem are to the south of the proposed choultry. There are none on the other side of it. Travellers along the new road seldom diverge, and the choultry at Sangam is in consequence scarcely used by them. I am, therefore, of opinion that the two endowed choultries referred to should not affect the grant of an endowment to the proposed choultry, and accordingly beg to recommend that a grant of land, assessed at Rupees 60, may be sanctioned after its completion as proposed.

*Proceedings of the Madras Government, Revenue Department, 3*  
18th November 1870.

ENCLOSURE No. 1.—Plan.

SUBMITTED for the orders of Government.

2. Akkarazu Ramaya, who proposes to construct a choultry at the foot of the Sangam hill on the Dornal road, requests—

I. Acres 6.40 as a site for the choultry.

II. Acres 37.40 for a public tope, the produce of which is to be applied to the benefit of the choultry.

III. A grant of land bearing an assessment of Rupees 60 as an endowment.

3. The Collector can dispose of the application for the land required for the tope under the Rules quoted by him.

4. The Board support the Collector's recommendation that acres 6.40 be assigned free of assessment as a site for the choultry, and that land, bearing an assessment of Rupees 60, be granted as an endowment, on the completion of the building according to the plan submitted, which the Board approve.

No. 248.

ORDER THEREON, 18th November 1870, No. 1,799.

Miscellaneous.

THE Government resolve to comply with the recommendation supported in paragraph 4 of the Board's Proceedings.

(True Extract.)

(Signed)

W. HUDLESTON,

Secretary to Government.

To the Board of Revenue.
