*Proceedings of the Madras Government, Revenue Department,
6th December 1870.*

No. 116. Read the following letter from the Government Quinologist, to the Acting Secretary to Government, Revenue Department, Fort Saint George, dated Ootacamund, 18th October 1870 :—

I HAVE the honour to forward Budget-estimates for the year 1871-72.

2. They include estimates for the conversion of the late Convict Jail at Neddivuttum into a manufactory for amorphous quinine. The sanction of Government for this will depend on the credit placed on my report, forwarded in August last, and also on the medical evidence, on the efficiency of amorphous quinine, now doubtless before Government. I affirm the necessity for these estimates. I propose, if possible, to prepare 300 to 400 lbs. of amorphous quinine next year, in the event of Government approving of these estimates.

3. The working charges are in estimates placed to the small manufactory at Ootacamund. I propose, however, to transfer them in actual work to Neddivuttum, whenever circumstances render this desirable. The other items in the estimates appear to require no explanation.

No. 117. ORDER THEREON, 6th December 1870, No. 1,946.

Miscellaneous.

Order of Government, dated 2nd November 1869, No. 2,903	Rs. 18,500
Do., dated 23rd November 1869, No. 3,028...	530
Total...	19,030

THE Quinologist's Budget for 1871-72 amounts to Rupees 24,901 against Rupees 19,030, the sanctioned Budget for 1870-71, and Rupees 12,800, the actuals of 1869-70. The actuals of the past year cannot be a safe criterion for an establishment like this, and deducting the provision of Rupees 7,280

for the conversion of the late Convict Jail at Neddivuttum into a manufactory for amorphous quinine, and for the purchase of the necessary machinery, etc.; the estimate under the usual heads amounts to Rupees 17,620. The separate provision of Rupees 720 for fuel will be struck out, and that for Saderward and Contingencies raised from Rupees 1,000 to Rupees 1,600. The round sum of Rupees 17,500 is passed.

2. The Government are not now in a position to come to any decision about the manufactory for amorphous quinine. The report of the Inspector-General of the Medical Department on the subject has been called for, and pending further orders, the Accountant-General will be instructed to include in his Budget the provision made by Mr. Broughton.
