Proceedings of the Madras Government, Revenue Department,
16th December 1870.

No. 329. Read the following Proceedings of the Board of Revenue, dated 27th October 1870, No. 6,357 :—

Read the following letter from the Honorary Secretary, Government Experimental Farm, to the Acting Secretary to the Board of Revenue, dated Madras, 21st October 1870, No. 84.

With reference to the Board's Proceedings of September 3rd, 1870, No. 5,585, I have the honour to forward copy of a letter from the Superintendent of the Government Farm, detailing the expenditure necessary to be incurred for a trial of the Rice-huller.

2. I am desired by the Committee to state that they cannot recommend the expenditure of money in a trial of the Rice-huller, as the principle thereof is, in their opinion, a bad one, and too expensive to work.

3. If, however, the Board determine that the experiment be tried, the Committee desire me to request that the Board will provide the necessary funds, as the Farm Funds are not in a position to disburse the amount required.

Enclosure No. 1.—Copy of letter from Superintendent of Government Farm, dated 14th October 1870, No. 107.

Submitted to Government, with reference to their Order, No. 1,256, of the 15th August 1870, and in continuation of the Board's Proceedings, under date 27th September 1870, No. 5,880.

No. 330. Order thereon, 16th December 1870, No. 2,047.

Miscellaneous.

The Government think it desirable that the Rice-hulling machine now at the Sydapet Farm should be exhibited in operation at Madras, where the merchants and others interested in the trade may see it at work.

2. It has been ascertained that the requisite steam-power can be supplied at the Chepauk Workshops, and the necessary orders to make it available will be issued in the Department Public Works.

3. The Bone-crushing machine, also at the Farm, should be exhibited in operation at the same time and place.

4. The Board will arrange with the Farm Committee for the transfer of the machines to Chepauk, and will in due course cause notice to be given to those whom it may concern that the machines are at work.

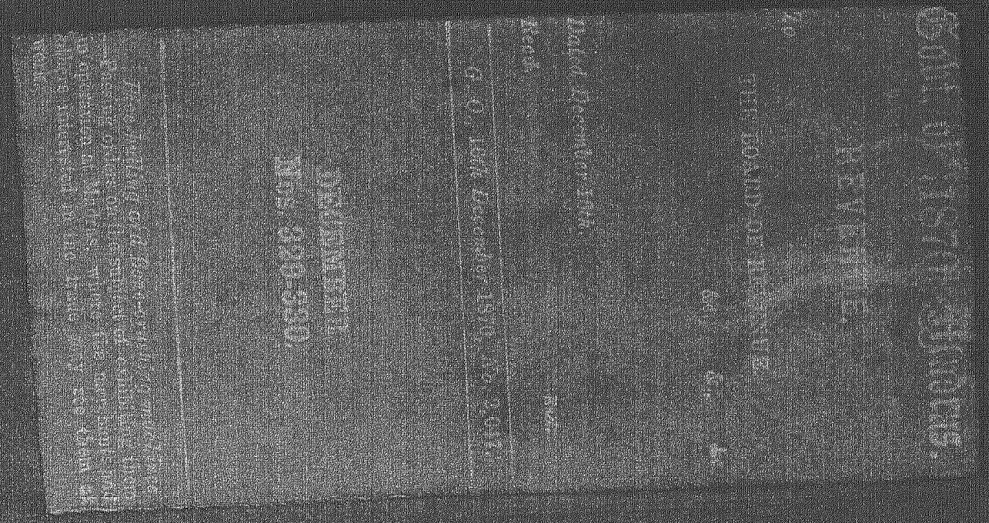

5. The Accountant-General will instruct the Board of Revenue how the charge involved in these arrangements is to be met.

Revenue Department

Memo. for Orders on

No. 3,404

Orders are requested as to whether any expense is to be incurred in trying the Rice-husking Machine at the Sydapet Farm, as was ordered by G. O. dated 15th August 1870, No. 1,256. The Supdt. reports that a trial will cost Rs. 100 at least and the Committee have no funds at their disposal. It is observed that

Trials by the Machine - £20 is not much for such a purpose.

The Kistna Machine has been used many times already - Leaving the name of trial.

J. D. F.

It appears from the Farm Committee that the Board has not it

that there is a rice-hulling machine at Nidamole in the Kistna district which will serve for purposes of experiment, and the Board in their Proceedings dated 27th Sept. 1870, No. 5880 have deprecated any expenditure on the machine at Sydapet.

Dft. J

LR.

Should be worked by water & was thus originally built

Dft. J

I think it will be best to let Indian Industries work it to be tried if it is necessary to do it by steam power. I think there is an engine in working order at Sydapet.

Under date the 16th December 1870.

Read the following

Proc of the Board of Revenue.

Submg. letter from Secy. to Farm Committee stating that Farm funds are not in a position to disburse amount required for putting Rice-hulling machine at Sydapet Farm in working order.

A.C. 24th Oct 1870. No 1357.

His Govt think it desirable that the Rice-hulling Machine now at the Sydapet farm should be exhibited in operation at Madras where the merchants and others interested

interested in the trade may see it at work.

2. It has been ascertained that the requisite steam power can be supplied at the Chepauk workshops, and the necessary orders to make it available will be issued in the D.P.O.

3. The bone crushing machine also at the Farm, should be exhibited in operation at the same time and place.

4. The Board will arrange with the Farm Committee for the transfer of the machines to Chepauk, and will in due course cause notice to be given to those whom it may concern that the machines are at work.

5. The Accountant General will instruct the Board of Revenue how the charge involved in these arrangements is to be met.
