No. 378.

Miscellaneous.

Dated 19th December 1870, No. 2,072.

THE Government in June 1869 proposed to relieve Mr. McIvor from the charge of the Botanical Gardens at Ootacamund, and to place them under the immediate management of Mr. Jamieson, the Deputy-Superintendent, but, owing to unexpected difficulties raised by Mr. Jamieson, the plan fell to the ground.

2. The Government are, however, now induced to revert to the plan, being impressed with the importance of enabling Mr. McIvor to concentrate his attention more fully on the Cinchona plantations and propagating houses, especially as much of his time may be occupied by the details of that "siling" experiment in the success of which so much interest is felt. Under present arrangements the gardens cannot but hold a secondary position in Mr. McIvor's combined charge, although serving to distract his attention, in some measure, from matters of more immediately pressing importance, while they are doubtless capable of being developed beyond their present phase and made in many ways more generally useful to the community.

3. The Government resolve, therefore, to direct the Commissioner of the Neilgherries to ascertain and report whether Mr. Jamieson still entertains the objection he formerly expressed to being placed in sole charge of the Botanical Gardens under the Commissioner's immediate orders; and in the event of his being willing to undertake the duty, the Commissioner will suggest in detail the arrangements he would recommend for adoption, in which the Government desire that Mr. McIvor's convenience, as regards his present residence, may be kept carefully in view.

No. 2072 Revenue Department
Proceedings of the Madras Government
Under date 16th December 1870.

The Government
in June 1869 proposed to
remove Mr. Jamieson from
charge of the Botanical
Gardens at Cochin and
and to place them under
the immediate management
of Mr. Jamieson. The
Superintendent, but owing to
expected difficulties
raised by Mr. Jamieson
the plan fell to the ground.

especially as much of
his time ^{may be} ~~must necessarily~~
be occupied by the details
of that "Sitting" experiment
the success of which
so much interest is

felt. Under present
 arrangements the garden
 cannot but hold on secondary
 position in the L.C.C.
 combined charge, although
^{serious}
~~meant~~ to distract his at-
 tention in some measure
 from matters of more
 immediate importance.

I have no objection
to this draft except
the last paragraph
which I consider to be
unsuccessful for.
I do not highly appreciate
the two provisions
in connection with the
Government purchase of
the land. The
upper part of the purchase
is with land not
but the natural abundance
are very great and
within a few years
the land display
in buying not the
part of the purchase.
However it is a well known
fact that for many
years past the land
has shrunk & was
much larger than
of his time & other
of matters affecting
the Government. In the
public domain there
has been present the
in the case of the
public domain. The
purchase has in consequence
happened & is not
and has been in the

opinion, at all about
 it ought to have been immediately passing in.
 he has been in the intelligence and in importance while they were
 in the hands of the Commission, doubtless capable of being
 operations upon the developed beyond their pre-
 sent phase, and made in
 our time it must be submitted but much many ways more generally
 more might have been effected by giving much useful to the Community.
 further income which 3. The Govt. resolve there-
 fore to direct the Commis-
 sioner of the charges to
 have been wasted, might
 have been saved, if
 he had given to his
 public relations but
 attention should be
 given to devote to
 & there in other words
 if he had given a more
 conscientious & more
 responsible man. Then
 is I believe, no doubt
 that the Govt. must
 withdraw & as he was
 & embark in the plantation
 at his own risk, in
 order that he might
 obtain the advantage
 of a public work & the event of his being well
 an admirable subject
 and it should be more
 largely interested. Commissioner will suggest
 I have very much

detail the arrangements
would recommend for adoption
in which the hosts de-
sire the historical com-
mission in regard to his
present residence may
be kept carefully in view.

The hosts take this
opportunity of expressing
their sense of Mr. Wilson's
kind services in connec-
tion with the fund-raising
which they fully ap-
preciate.
