has always paid the established seigniorage. It is impossible to say what a concession of this nature may not lead to in our railway districts. Throughout Cuddapah and Kurnool nearly every merchant is a ryot to a certain extent, but if already not so, he will only have to get a piece of land to be able to procure all his timber and fuel free for the purposes of trade.

No. 57. ORDER THEREON, 6th January 1871, No. 27.

Forests, No. 6.

THE Government agree with the Board that the previous practice should be maintained.

2. The rule is that ryots may have fuel *free* from unreserved tracts for *use*, but not for *sale*, and the Government are not disposed to curtail this privilege in any such manner as is proposed.

3. It is desirable by all means to encourage such small industries as the manufacture of indigo and sugar by the growers, and it would be impossible to make such distinctions as the forest officers desire without vexatious interference and inquisition.

Fuel for manufacture of Indigo and
Sugar.—Passing orders on Proceedings Board of
Revenue with reference to the maintenance of the

in Council is of opinion
that the rule authorizing
villagers to supply them-
selves with firewood from
Goat Jungles without
the payment of the re-
gulated rates of seignior-
age cannot be held
to include firewood taken
for manufacturing pur-
poses, and must be con-
sidered to cover only such
quantity of firewood as
may be required for
their domestic consumption.

I would not curtail
this in any ^{such} way as
is proposed. These
small industries
need every encourage-
ment. It will be
impossible to restrict
in that direction in
the present & indefinite
I agree there but with
the Govt. H. M.
