An application having been made to the Society by the Curator of the Royal Botanical Gardens, Mauritius, for a supply of tree-seeds, I have the honour to request that you will favour the Society by instructing the Conservator of Forests to send to me supplies of such timber-tree seeds as he may have on hand, or be able to procure during the present season.

2. It appears that the Mauritius has of late years suffered very severely from droughts, and this being attributed to forest-destruction, an attempt is about to be made to re-plant the Island with timber-trees.
