Proceedings of the Madras Government, Revenue Department,
23rd June 1870.

No. 274. Read the following letter from the Accountant-General, Madras, to the Secretary to Government, Revenue Department, dated Fort Saint George, 6th May 1870, No. 36 :—

I HAVE the honour to point out that Government Order, No. 1,630, dated 9th June last, Revenue Department, relating to the employment of persons after retirement from service, differs from the Resolution of the Government of India, No. 201, dated 26th April 1869, Financial Department, previously issued on the same subject, and embodied in Government Order, No. 233, dated 20th May 1869, Financial Department. If I am correct in supposing that the above Order of the Government of India has been overlooked, I request therefore that Government will be good enough to issue such orders as may put an end to the difficulty in which my department finds itself at present, owing to the contrary instructions on record.

No. 275. ORDER THEREON, 23rd June 1870, No. 925.

Miscellaneous.

THE Government observe that by the Order of the Government of India, dated 31st March 1868, No. 1,837, a pensioner of Government if employed on an establishment paid from Local Funds, is entitled to draw the full salary of his office without diminution of his pension. The Resolution of the Government of India, dated 26th April 1869, No. 201, does not apply to service remunerated from Local Funds.

of the Financial Dept. of this Government under date 20th May 1869 No. 233, was republished in the order in the Revn. Dept. ment under date 2d June 1869 No. 1551, and these orders again were held to be applicable to Servants paid from Local funds in the G.O. in the Revn. Dept. under date 9th June 1869 No. 1630.

had obtained Employment under the Madras Railway Co. or in the Bank, he would have Drawn his pension in that Quarter. The fact that Local Fund Servants have a pension does not, in any Degree, touch the point, because those pensions are found out of the Fund - just charged to the State.

The principle on which the Rule is based is that it is sound for the State to pension a man as unfit for other work & then

& employ him & pension him to the day of his death. It of course sometimes happens that a pensioner becomes again fit for work & is re-employed & then the State allows him only so much of his pension as it sees fit. But just does not follow a pensioner with other than State service nor does it seek to debar him from making what he can privately. If it did a man would the Govt. Instit. - keep not put it to pay to a man who had inherited a fortune, "how far can we call upon & decide step the

pension the extent in our service, according to our Rules"?

Should therefore Council the P.O and declare that Local Fund service is to be considered like State service, in so far as relates to pensions granted by the State prior to entry in to it.

This will be but a just claim earned to pension but not to Entry in to it.

S. D. S

we might discuss the matter in Council. I am inclined to agree with Mr. Sim. If we lay down that Local fund service is Private Service we shall offer a great incentive to fraud in obtaining certificates of incapacity for further service. Men will invalid & retire as fast as possible and reappear immediately as Local fund officers drawing a pension from the State directly and wages from the State indirectly - for really Local fund Service is a form of State Service. -

N

We had better talk it over in Council. I don't much fancy the idea of declaring Local fund Service private service.
