*Proceedings of the Madras Government, Revenue Department,
30th June 1870.*

No. 358. Read the following Endorsement of the Inspector-General, Indian Medical Department, dated Fort Saint George, 20th June 1870, No. 143:—

Read the following letter from Apothecary R. HUFFTON, in medical charge Chatterpore, to the Deputy-Inspector-General, Indian Medical Department, Presidency and Northern District, dated 6th June 1870, No. 28.

REFERRING to my letter, No. 24, under date 5th May 1870, I beg to state that fever continued to increase during the first three weeks of last month, since which period there has been a gradual diminution in the daily number admitted. The total number of admissions during the whole month amounted to 214.

2. No deaths took place of those who were treated in hospital; but from the monthly report, submitted to the Collector by the Curnum and Carjee, I observe it stated that of seven deaths which occurred in the Town of Ganjam, two of those are said to have been from cholera.

3. I have not heard of any cases of this disease beyond what is stated in the above report, and I have been informed that the village authorities not unfrequently put down as cholera cases which have sunk from exhaustion, the result of diarrhoea.

Weekly Report of Fever-cases among the Civil population of Ganjam, from Monday the 23rd to Sunday the 29th May 1870.
