*Proceedings of the Madras Government, Revenue Department,
19th June 1871*

No. 236. Read the following letter from the Government Quinologist, to the Acting Secretary to Government, Revenue Department, Fort St. George, dated Ootacamund, 9th June 1871 :—

WITH reference to G. O., Revenue Department, No. 990, of 5th June 1871, I have the honour to state that in 1869 I addressed the Medical Inspector-General on the subject of Quinovin, and gave a translation of parts of an article by Dr. Kermer, which had appeared in the *Vierteljahresschrift für practische pharmacie* (Vol. XVII., S. 335). I also forwarded a sample of calcic quinovinate, and requested that it might be experimented upon therapeutically. The letter and extract were published, I found, in the Madras Monthly Journal of Medical Science for January 1870, where, in a foot-note, the quinovinate was stated to be under trial.

2. About a year since I was applied to for a further quantity, which I furnished; but I have as yet received no report as to the results. I am greatly desirous of hearing the conclusions to which the Medical Department have arrived on the subject, and trust soon to receive the report. Further supplies of calcic quinovinate will be supplied if required.

No. 237.
