*Proceedings of the Madras Government, Revenue Department,
16th January 1871.*

No. 223. Read the following letter from the Acting Collector of Ganjam, to the Secretary to Government, Revenue Department, Fort Saint George, dated Chetterpore, 16th December 1870, No. 1,628:—

With reference to the Government Order, No. 1,289, of the 18th August last, I have the honour to submit an estimate showing the probable cost of maintaining a small plantation of Cinchona on the Mahendra mountain, amounting in the aggregate to Rs. 200 a-year; the preparation, etc., of the ground will cost about Rs 50.

2. On my asking the Zemindar of Mundasah to inform me of the probable cost of reclaiming and hedging the spot selected by the Overseer of the Purlakimedy forests, and of sinking a well, he informed me that the site selected by the Overseer, which is situated at a distance of about a mile to the north of the bungalow erected by Mr. Forbes, and at present belonging to Mr. Carmichael, is a good one, but that there is no water close at hand; he therefore recommended the selection of another site at a distance of about half a mile to the east of the above-mentioned bungalow, a water-course being not far off, which is not quite dry even in the hottest weather.

3. During my late tour to the southern portion of the district, I took an opportunity of visiting Mahendra; the spot recommended is in view of the bungalow, and has the advantage of a water-course. Its extent is little over $4\frac{1}{2}$ acres, being 160 by 140 yards; that selected by the Overseer is nearly $4\frac{1}{8}$, being 150 by 133 yards.

4. The presence of an experienced person is necessary, until the operation of planting is over, for the purpose of instructing the gardeners how to take care of the plants.

(Signed) GEORGE ELLIS,
Acting Collector.

No. 224.

ORDER THEREON, 16th January 1871, No. 109.

Forests, No. 17.

As Mr. Ellis's report shows that a small Cinchona plantation can be formed in the Ganjam District at very light

*Proceedings of the Madras Government, Revenue Department,
16th January 1871.*

cost to Government, Mr. McIvor will at once place himself in communication with the Acting Collector, with a view to the despatch to the district of a sufficient quantity of both plants and seeds. Mr. McIvor will select the species of plants which he deems most likely to succeed in the locality.

2. Experience in other districts has shown that the Cinchona tree can in many localities be acclimatised by the exercise of ordinary care, and the Overseer of the Purlakimedy forests will doubtless be able to establish the plantation with the aid of such advice as he may receive from Mr. McIvor and the Acting Junior Assistant Agent.

3. The Accountant-General will report how the small necessary expenditure can be provided for.

(True Extract.)

From

The Acting Collector
of Ganjam

To

The Secretary to
Government
Revenue Department
Madras

Sir,

With reference to the Government
Order No 1289 of the 18th August last, I
have the honor to submit an Estimate shewing
the probable cost of maintaining a small
plantation of Cinchona on the Mahendragiri moun-
tain amounting in the aggregate to 200 Rupees
a year; the preparation &c of the ground will
cost about 50 Rs.

On my asking the Zamindar of Mund-
rah to inform me the probable cost of re-
claiming and hedging the spot selected by
the Overseer of the Parlah Kinnerdy forests and
of sinking a well, he informed me that the
site selected by the Overseer, which is situated
at a distance of about a mile to the north
of the bungalow erected by Mr Forbes and
at present belonging to Mr Carmichael
