Proceedings of the Madras Government, Revenue Department, 10*th July* 1871.

No. 100. Read the following letter from the Acting Secretary to the Board of Revenue, to the Acting Secretary to Government, Revenue Department, Fort Saint George, dated Madras, 21st June 1871, No. 2,493 :—

WITH reference to Government Order dated 14th February 1871, No. 281, I am directed to submit the accompanying memorandum on the ten forms proposed by the Government of India for exhibiting the results of the November Census.

2. The Board think Statements Nos. I. and IV. can be materially improved, and submit amended forms. They think two new statements will be required ; one to show the occupations, and the other the religions of the population divided (but not minutely) into castes and classes, but the exact form of these statements must be left to the Census officer.

3. The population generally fixed for the standard of a town in this Presidency is 5,000 as assumed in the forms.

No. 101. ORDER THEREON, 10th July 1871, No. 1,187.

Miscellaneous.

THE Proceedings of the Board and the tabular forms as drawn up by them are approved by Government with the following modifications :—

2. Statement I.—A column headed "Average population per square-mile" should be introduced between columns 13 and 14. The words "statistics relating to infirmity and disease" should be substituted for "incapacitated," (columns 14—17).

3. Statement III.—The remarks of the Board are also applicable to the column having reference to children of ages not exceeding 12 years.

4. Statement IV.—The Board have not provided for the entry of the data on which the returns of area and assessment were prepared—(*vide* G. O. dated 24th February 1870, No. 288, Revenue Department; also the Board's "Instructions" to the enumerators). Between columns 6 and 7 should be introduced four columns headed "Data of measurement" and sub-headed respectively "Survey," "Curnum's measurement," "Pymash measurement," and "Rough estimate."

5. Statements V. and VI. should extend to talooks.

6. In Statements VIII. and IX. the word "district" should be substituted for "division" and "talook" for "district."

7. In the opinion of Government there should be an eleventh statement having reference solely to Municipal towns, in which, it must be remembered, half the cost of the Census is borne by the Municipality. This statement should contain particulars of the population under the several heads of sex, race, ability or inability to read and write, caste and occupation. The Government are not as yet prepared to prescribe the divisions of caste which should be observed in tabulating the returns, and therefore the form cannot now be drawn up. The remarks of the Board in their concluding paragraph are approved ; it is particularly

Proceedings of the Madras Government, Revenue Department,
10*th July* 1871.

---

advisable that the relation between caste, religion, and occupation, should be exhibited in the returns.

8. Drafts of Statements I. and IV. revised in the respects noted above will be forwarded to the Government of India.

Miscellaneous.

Procs. of Govt., 10th July 1871, Nos. 100, 101.

SIR,—Adverting to your letter dated 23rd January 1871, No. 434, I am directed to submit the marginally noted Proceedings of this Government, having reference to the forms to be employed for exhibiting the results of the impending general Census.

2. Amended forms of Statements I. and IV. are forwarded herewith. I am especially to call the attention of the Government of India to the remarks of this Government in paragraph 7 of their Order relative to the more elaborate tabulation of the Census Returns from Municipal towns, and also regarding the exhibition, as part of the result of the Census, of the connection between religion, caste, and occupation.

I have the honour to be,
Sir,
Your most obedient servant.

(Signed) D. F. CARMICHAEL,
Acting Secretary to Government.
