

No. 310. Read the following Proceedings of the Board of Revenue, dated 4th July 1871, No. 2,684 :—

Read again Board's Proceedings, dated 8th November 1870, No. 6,547.

Read also the following letter from the Acting Director of Revenue Settlement, to the Acting Secretary to the Board of Revenue, dated 20th May 1871, No. 1,021-36.

REFERRING to Board's Proceedings No. 6,547, dated 8th November last, I have the honour to explain that the figures given in my Annual Report regarding the results of the new Settlement in Kurnool proper were in accordance with a statement received from the Deputy-Director; the Collector's statement referred to not having come to hand until after the report was closed.

2. On receipt, however, of the Board's Proceedings now under reply, the Deputy-Director was called upon to explain the cause of the discrepancy between his statement and that furnished by the Collector. Captain Stuart now forwards three statements drawn up by the Collector, and explains that the difference was owing to certain items which were omitted in the earlier Returns from the talooks, to the exclusion of area and assessment under ryots' occupancy in unsurveyed blocks; and to the inclusion of Teerwa and Fasaljasti. Hence the difference between the two Returns. Copies of the three statements forwarded by the Collector are herewith transmitted for the information of the Board.

3. As shown by the figures in the Annual Report the revenue year (Fusly 1279) exhibits a decrease when compared with the realizations of Fusly 1273, the last year of the old regime; but these later Returns reduce this deficit to Rs. 23,129, as will be seen by Enclosure 3. Mr. Chase does not mention, except in a general manner, how this decrease has been occasioned. In the talooks of Ramalkota and Nandikotkur the revenue of the past Fusly is in excess of that of Fusly 1273; but in Nandial and Sirwell it falls off. It is noteworthy that in Nandial, although there is an increase in cultivated area of upwards of 15,000 acres, there is a decrease in revenue of more than 16,000 Rupees.

Proceedings of the Madras Government, Revenue Department,

The water-rate on wet lands for the first crop as at present shown in the accounts is included with the assessment. It is, however, separated from the assessment in this statement, and is shown in column 9. Column 8 is not filled up, as the acres on which water-rate is collected are included in the extent shown in column 4. The figures given for Fusly 1279 have been obtained from the Settlement accounts of that Fusly and are therefore actuals and not a mere estimate.

*Proceedings of the Madras Government, Revenue Department,
24th July 1871.*

SUBMITTED to Government, with reference to Government Order, 8th March 1871, No. 418, paragraph 5.

2. It appears that the decrease in the revenue demand for Fusly 1279 in Kurnool proper is less than the Director reported. Compared with Fusly 1273 it is Rs. 23,129 instead of Rs. 46,995, and compared with Fusly 1278 it is Rs. 7,269 instead of Rs. 11,134.

3. With regard to the former decrease the Collector explains that it is chiefly due to the Settlement, and with regard to the latter that Rs. 4,150 is due to the Settlement, and most of the rest to the relinquishment of land requiring to be left fallow.

4. The extent to which the cultivated area in Nandial has increased while the revenue has diminished is remarkable, and the Collector will be requested to give some explanation of it.
