MADRAS RECORD OFFICE.

Government of Madras.

Revenue DEPARTMENT.

G.O. No.	1648	Press ~~Mis.~~
Dated	21. 9.	1871.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Revenue Department,
21st September 1871.*

No. 282. Read the following letter from the Government Quinologist, to the Secretary to Government, Revenue Department, Fort St. George, dated Ootacamund, 18th September 1871:—

I HAVE the honour to reply to G. O. No. 1,420 of 21st August 1871, in reference to the Mahableschwur plantations.

2. The analyses, whose results I had the honour of communicating on the 14th July last, were satisfactory, as were also the measurements representing the growth of the trees. The appearance of the bark was not so good, being different to that which the European market is accustomed to receive.

3. If considerable quantities of Cinchona bark are required in the Bombay Presidency, the analyses referred to give sufficient encouragement to proceed with the cultivation. I am, of course, ignorant of the cost of the plantations, and, as directed in G. O., give my opinion with reference only to the analyses.

4. I may perhaps be permitted to state, as personal convictions, first, that there is already more red bark growing in India than can be therein consumed as febrifuge; second, that it is not the best kind cultivated in India. I have long since recommended the cessation of planting *C. Succirubra* on the Nilgiris.

No. 283. ORDER THEREON, 21st September 1871, No. 1,648.

ORDERED to be communicated to the Bombay Government, with reference to their Chief Secretary's letter dated 15th August 1871, No. 2,221.

(True Extract.)

(Signed) W. HUDLESTON,
Secretary to Government.

To the Government Quinologist.

Erd. F. R. Bantleman.

best kind cultivated in India.
I have long since recommended
the ception of planting C. Succirubra
on the Nilgherries.

I have the honor to be
