

*Proceedings of the Madras Government, Revenue Department,
25th September 1871.*

No. 308. Read the following Proceedings of the Board of Revenue, dated 8th September 1871, No. 3,872 :—

Read the following letter from the Collector of Kurnool, to the Acting Secretary to the Board of Revenue, dated 15th August 1871, No. 266.

I HAVE the honour to submit a report on the cattle-disease (Musara) which broke out in June 1871 in four villages of the Nandial Talook and one village of the Koilkuntla Talook in this district.

2. The disease appears to have been virulent, having carried off 147 out of 288 that were attacked, and especially so in Maddur where 94 out of 161 attacked died.

3. Dr. Thacker's medicine, distributed by the Tahsildars, was administered in only one village, Gundla Singavaram, but is reported to have been attended with no good results.

4. It appears that preventive measures to check the progress of the disease were used in almost all the villages by separating the diseased cattle from the whole stock.

5. I beg to enclose, for the information of the Board, a statement showing the names of the villages, number of cattle attacked, died, recovered, and still remaining sick, etc :—
