Proceedings of the Madras Government, Revenue Department, 25th September 1871.

No. 335. *Dated 25th September* 1871, *No.* 1,673.

Read G. O., dated 5th April 1871, No. 649, Revenue Department.

Local Funds, No. 1.
Civil Works.

In the above order the Government, observing that the selection of roads for construction now devolves on the Local Fund Boards in the several Districts, resolved that it was no longer necessary to require Superintending Engineers to prepare the complete schemes of district roads which had been previously ordered.

2. On re-consideration of the subject the Government are of opinion that, as Superintending Engineers have now been constituted members of all Local Fund Boards within their divisions, it is desirable that the Board of every Circle should prepare an approximately complete sketch system of roads within it to be constructed or put in efficient repair for wheeled traffic in communication with the Boards of all adjoining Circles, and they resolve, therefore, to direct that this be done, and that a report, with sketch map showing the proposals, shall be submitted for the general approval of Government.

(True Extract.)

(*Signed*) W. HUDLESTON,
Secretary to Government.

To the Collectors of all Districts, as Presidents of Local Fund Boards.
,, the Board of Revenue.
,, the Public Works Department.
,, the Financial Department.
