No. 342. Read the following letter from the Acting Director of Revenue Settlement, to the Secretary to Government, Revenue Department, Fort St. George, dated Palmanair, 5th September 1871, No. 1,788-59:—

I HAVE the honour to submit the report on the progress made and expenditure incurred by this department during the first quarter of the present official year 1871-72.

2. *Kistna District.*—The small remnant of the Settlement Establishment still at work in this district has demarcated, classified, and surveyed the Kistna lunkahs appertaining to Bunder and Repally Talooks, with the following results:—

Items.	Last Quarter.		In this Quarter.		Difference.	
	Number of Villages.	Actual area of Work.	Number of Villages.	Actual area of Work.	Number of Villages.	Actual area of Work.
Demarcation	3	100	17	2,067	+14	+1,967
Classification	3	99	17	1,940	+14	+1,841
Survey	10	790	17	2,088	+ 7	+1,298

It will be observed that there has been a considerable increase in the results of the quarter under review. Work in Repally has been brought to a close, and that in Bunder will soon be out of hand. The men have also measured 166 inner-holdings of 57 Survey numbers in five villages. The work having been brought to completion accounts for a less outturn than that of the month previous.

3. The number of field-marks put up during the quarter is particularised below:—

Field-stones	1,707
Khandam-stones	16
Total...	1,723

The office-hands were during the quarter engaged in the revision of the field and classification registers and demarcation sketches relating to 128 villages. Both the field and office establishments will be hereafter employed (till the receipt of Government orders on the introduction of Settlement rates in the Guntoor portion of this district) in the preparation of accounts relative to the newly demarcated, classified, and surveyed fields, as well as of those portions of the

Kistna lunkahs lately dealt with by this department. The examination of the measurement of sub-division fields must also be kept up.

4. Diglott Settlement Registers have been written up for eight villages of the Guntoor portion of the district during the period under report. Those for the Masulipatam portion have been almost completely printed; only the register for [illegible] exception is owing to certain information that is yet to be furnished by the Collector. The following is an abstract of the number of Settlement Registers bound up to the end of the quarter under report, and sent to the Collector:—

Total number of volumes bound ... ... 116 for 413 villages.
Number of volumes sent to the Collector. 104 for 377 do.

Of the copies of Settlement Registers prepared for the use of Curnums, all, with the exception of two, have been sent to the district. There is a decrease of 132 Rs. in the expenditure of this quarter owing to the Uncovenanted Assistant's place having become vacant.

5. *Cuddapah and Kurnool Districts.*—Mr. Cox, who was at the head of the Party in these districts, has recently proceeded to Europe on leave, and was succeeded by his Assistant Director, Captain Stuart, in the month of May last. The Deputy-Director, before availing himself of the leave, sent up his report on the Settlement of Cuddapah, Jummalamadoogoo, and Proddatoor in the Cuddapah District, and of Koilguntla in Kurnool. The report will be shortly forwarded to the Board with my usual letter of remarks and suggestions. The subjoined statement shows that the outturn of field-work in the quarter under review is considerably in excess of the results of the preceding one:—

Talook.	Items.	Last quarter.		In this quarter.		Difference.	
		Acres.	Square-miles.	Acres.	Square-miles.	Acres.	Square-miles.
Kadri	Demarcation ...	53,357	83	70,956	111	17,599	28
	Classification ...	19,580	31	32,845	51	13,265	20

The number of field-marks set up during the quarter is detailed below:—

	Rs.
Masonry pillars on village boundaries...	765
Do. do. Khandams	2,512
Field-stones	99,058

6. Hill boundary demarcation has been nearly completed in the Jummalamadoogoo and Royachoty Talooks, and the results of this branch of work are shown below:—

———	Villages.	Acres.	Square-miles.
Government...	62	1,34,577	210
Agraharams...	13	5,057	8
Total...	75	1,39,634	218

7. Measurement of inner-holdings has been carried on by Curnums instructed by Survey Ameens, and an outturn of 5,112 sub-divisions in 1,817 survey-fields of Pullampett and Jummalamadoogoo Talooks was produced; and this task is reported to have been satisfactorily conducted.

8. Diglott Settlement Registers for [illegible] were printed were received during the period under report at the Central Office.

9. The expenditure incurred by this Party during the quarter is less by Rs. 5,817 than that of the previous one, and this is due to the pay of Mr. Cox for May and June not having been debited to those months, and to a smaller sum spent on account of printing. To these must be added the total absence of any item under the head of "Cost of boundary pillars." The demarcation performed by this Party appears to be now neater and more regular; but efforts are being made to have the stones quarried in a still more uniform and shapely manner, thereby improving both the appearance and permanency of the work. Matters would have gone on still better had there been more supervision by English officers, but the Party has been short-handed in this respect owing to illness, and the time that elapsed before vacancies could be filled up.

10. *Salem.*—The Settlement Party under Mr. Goodrich in this district has completed revision of classification in Ahtoor, Salem, and Trichengode Talooks, and fair puttahs were issued for Ahtoor at the Jummahbundy of Fusly 1280. The report of the results of the new Settlement will be shortly forwarded to Government. In Uttengherry, Namacul, and Darampoory, similar revision of classification and registration for Settlement was carried on during the quarter, and the results achieved are shown below:—

———	Villages.	Acres.	Square-miles.
Last quarter	249	2,08,851	326
In this quarter...	334	1,89,554	296
Difference ...	+85	—19,297	—30

It will be observed that there is a falling off in the actual area of work; but this is accounted for by the fact that a large portion of the field establishment has been engaged at the Hazin in the preparation of fair puttahs and chittahs for Ahtoor. It may not be out of place to mention here that the continued neglect of the Darampoory Tahsildar in rendering the requisite assistance to the Settlement officers has been partially a cause of the less outturn of work noted above. The writing of the rough puttahs for Salem and Trichengode Talooks was commenced in June.

11. New demarcation and classification were performed to the extent of 1,144 acres in twenty-seven villages during the quarter under review. The number of minor holdings measured was 13,371 comprised in 5,645 Survey numbers.

12. In pursuance of the orders* of Government redemarcation was conducted in the Uttengherry Talook of Baramahal and in Darampoory. The outturn of this operation is shown below:—

*Dated 22nd March 1871, No. 515.

	Number of Villages.	Number of Fields.	Extent.	Stones put down.
Uttengherry	35	3,912	13,758	9,129
Darampoory	14	923	3,343	2,995
Total...	49	4,835	17,101	12,124

The stones put down are firmly embedded in the ground, and the survey fields are marked with the broad arrow. The stones for the minor holdings have not this device, and are thus distinguishable.

13. Diglott Settlement Registers were written for six villages of Ahtoor and Trichengode during the period under report. The expenditure incurred by this Party is Rs. 14,012, which is slightly in excess of the sum spent during the quarter preceding.

14. *Nellore and North Arcot Districts.*—Mr. Rundall has completed his report for the principal division of the Nellore District, and has been engaged with his field establishment in the preparation of the details for the Settlement report of the sub-division. A few of the hands were also, at the request of the Collector, employed in the demarcation of certain tank-beds, situated in the anicut-irrigated villages of Gudur. The same men were also engaged in the classification of certain newly demarcated areas, and the results of these two branches of work as compared with the former quarter are given in the subjoined abstract:—

	Demarcation Areas	Classification acres.
Last quarter	1,149	603
In this quarter... ...	1,265	1,110
Increase...	116	507

15. Diglott Settlement Registers were completely written up for the villages of Udayagherry and Kavali Talooks, and those for 214 villages of the other talooks noted in the margin were completed during the quarter. Immediately on receipt of Government orders regarding the demarcation and classification of the Chendragherry Talook in North Arcot some of the employés were despatched thither, with a view to make the necessary arrangements for the

Rapur	15
Nellore	11
Atmakur	22
Gudur	64
Kanighirri	32
Kandukur	70
Total...	214

and six villages of Ongole are in progress.

preparation of stones and commencement of field-work. This Party has incurred an expenditure of Rs. 10,440 during the quarter, which is in excess of the outlay of the preceding quarter by Rs. 781. This is owing to an increase in the bulk of the establishment on account of work commencing in Chendragherry as well as a larger outlay for printing and for [illegible] maps

and Ponnery [illegible]

outturn of classification is shown below:—

	No. of Villages.	Acres.	Square-miles.
Last quarter	47	25,300	40
In this quarter	77	39,578	62
Increase ...	30	14,238	22

	Survey Numbers.	Sub-division Numbers.
Last quarter ...	3,224	8,017
In this do. ...	6,686	17,773
Increase ...	3,462	9,756

Measurement of minor holdings shows also a marked improvement as will be seen from the comparative abstract in the margin.

17. The expenditure incurred on account of this establishment during the quarter under report exceeds that in the preceding quarter by Rs. 325, owing to a few more hands having been sent for from Salem and to an outlay for mounting maps.

18. *Godavery and Trichinopoly.*—The cost of printing selections from reports on these districts was Rupees 1,532, which is nearly the same as that for the previous quarter.

19. *Tinnevelly.*—The Settlement Party under the orders of the Collector of this district has been lately reinforced by a few hands from Salem for the demarcation of Sattur Talook, and the total expenditure incurred on account of the establishment was Rs. 4,100. This is less than the cost of the last quarter by Rs. 486 owing to the 1st Uncovenanted Assistantship having become vacant in April last. The amount of decrease would have been vastly higher had not more than 1,000 Rs. been spent in the redemarcation of Adinadapuram in Tenkasi Talook, concerning which subject some correspondence has passed between the Board and Government.

20. I may summarise the most noticeable points thus:—In Salem the Ahtoor Talook has been completed, and the Trichengode, Salem, and Namacul Talooks will be similarly entirely out of hand during the next quarter. In Cuddapah the combined Party are hard at work in the Kadri Talook; but fever is against them and knocks down both the English officers and the native field-hands. I hope very shortly to submit Mr. Cox's report on the four northern talooks to the Board; but as I once before mentioned, Settlement reports, although ordinary looking productions when done, take more time and labour than any one not conversant therewith would imagine. The Nellore Settlement scheme will, I trust, also be

forwarded to the Board next quarter; and in my next report I doubt not being able to show that Mr. Rundall has made good progress in Chendragherry. I should be glad of an expression of the wishes of Government regarding Sydapet and Ponnery, as the former talook will soon be completed. The scheme proposed [illegible] Public Works by Government Order [illegible] procedure were such as Government [illegible] orders upon the Gantoor and Pattikonda Settlements have to be passed by Government.

Grand Total...	.....	.....	.....	.....	.....	66,932	.....

* REMARKS.—Charges included in the assessment establishments.

NOTE.—The average cost per square-mile is high, mainly owing to the cost of the hill-boundary demarcation being included therein, although the *area* thus dealt with is not included, as the demarcation is not in detail. If the area be taken into account the cost would fall to Rs. 40-6-4 per square-mile.

Classification likewise shows a high average cost, partly owing to the hill-demarcation work being in this combined Party proportionately charged to classification without any area being calculated as a set off; and also to the establishments engaged in the preparation of the settlement details, and to the measurements of minor holdings, which similarly increase the charge without increasing simultaneously the area to be credited as completed.

[illegible]tember 1871.

No. 343. ORDER THEREON, 25th September 1871, No. 1,677.

Land Revenue.

ORDERED to be recorded.

(True Extract.)

(Signed) W. HUDLESTON,
Secretary to Government.

To the Acting Director of Revenue Settlement.

No. 1788/59

Revenue Settlement Office
on Circuit
Palmanair 5th September 1891

From,

Geo. Banbury Esquire
Acting Director of Rev. Settlement.

To.

W. Huddleston Esquire
Secretary to Government
Revenue Department

Sir,

I have the honor to submit the
report on the progress made, and
expenditure incurred, by this Department
during the 1st quarter of the present Official
year 1891-92.

Kistna District. 2. The small remnant
of the Settlement Establishment still
at work in this District, has demarcated,
classified and surveyed the Kistna
lankahs appertaining to Bunder and

Respectfully

Repally Taluks, with the following results.—

Items	Last quarter		In the quarter		Difference	
	No of Villages	Actual area of work	No of Villages	Actual area of work	No of Villages	Actual area of work.
Demarcation	3	100	17	2067	+ 14	+1967
Classification	3	99	17	1920	+ 14	+1821
Survey	10	790	17	2088	+ 7	+1298

It will be observed that there has been a considerable increase in the results of the quarter under review. Work in Repally has been brought to a close, and that in Bunder will soon be out of hand. The men have also measured 166 inner holdings of 57 survey numbers in 5 villages. The work having been brought to completion, accounts for a less outturn than that of the months previous.

3. The members of field marks put up during the quarter is particularized below:—

Field stones	1704
Khandam stones	16
Total	1720

The

The office hands were, during the quarter, engaged in the revision of the field and classification Registers and demarcation sketches relating to 128 villages. Both the field and office establishments will be kept employed (till the receipt of Government orders on the introduction of settlement rates in the Guntur portion of this District) in the preparation of accounts relative to the newly demarcated, classified and surveyed fields, as well as of those portions of the Kistna Link which lately dealt with by this Department. The examination of the measurement of sub division fields must also be kept up.

4. Diglott Settlement Registers have been printed up for 8 villages of the Guntur portion of the District, during the period under report. Those for the Masulipatam portion have been almost

almost completely printed, only the register for Avaingudda in the in Bundes Taloob, remaining yet to be sent to the Press. This exception is owing to certain information that is yet to be furnished by the Collector. The following is an abstract of the number of Settlement Registers bound up to the end of the quarter under report, and sent to the Collector.

Total number of Volumes bound } 116 for the 13 Villages

Number of Volumes sent to the Collector } 102 for 377 — Do —

Of the copies of Settlement Registers prepared for the use of Karnamis all, save the exception of two, have been sent to the District. There is a decrease of 132 Rupees in the expenditure of this quarter, owing to the Lenemo-nated Assistants place having become vacant.

Coddapah and Kurnool Districts

5. Mr Cox who was at the head of the Party in these Districts, has recently proceeded to Europe on leave, and was succeeded by his Assistant Director, Captain Stewart, in the month of May last. The Deputy Director, before availing himself of the leave, sent up his report on the Settlement of Cuddapah, Nummalamadoogoo and Poddatoor in the Cuddapah District, and of Koil-gunda in Kurnool. The report will be shortly forwarded to the Board with my usual letter of remarks and suggestions. The subjoined Statement shews that the outturn of field work in the quarter under review is consider-ably in excess of the results of the pre-ceding one.

Taluq.	Items	Last quarter		This quarter		Difference	
		Acres	Sq Chains	Acres	Sq Chains	Acres	Sq Chains
Kadiri	Demarcation	53357	83	70956	111	17599	28
	Classification	19580	31	32825	51	13245	20

The number of field marks set up during

during the quarter is detailed below.—

Masonry pillars on Village boundaries 765
——do——do——Khandums 2512
Field stones ——————— 99008

6. Still boundary demarcation has been nearly completed in the Jummalamadugu and Royachoty Talooks, and the result of this branch of work are shewn below.—

	Villages	Acres	Sq Miles
Government ———	62	134577	210
Inamdars ———	13	5057	8
Total ———	75	139634	218

7. Measurement of inner holdings has been carried on by Curnams, instructed by Survey ameens, and an outturn of 5,112 sub. divisions in 1889 Survey fields of Pullampett and Jummalamadugu Talooks, was produced; and this task is reported to have been satisfactorily conducted.

8. Digloth Settlement Registers for 26 villages of Kurnool proper, were received during the period under report, and 13 Registers were printed at the Central office.

9. The expenditure incurred by this party during the quarter is less by Rs. 5814 than that of the previous qr. and this is due to the pay of Mr Cox for May and June not having been debited to those months, and to a smaller sum spent on account of printing. To this must be added the total absence of any items under the head of Cost of boundary pillars. The demarcation performed by this party appears to be now neater and more regular, but efforts are being made to have the stones guarded in a still more uniform and shapely manner, thereby improving both the appearance and permanency of the work. Matters would have gone on still better had there been more supervision by English officers, but the

the party has been shorthanded in this respect owing to illness, and the time that elapsed before vacancies could be filled up.

Salem 10. The Settlement party under Mr. Goodrich in this District has completed revision of classification in Athtoor, Salem, and Erikengode Taloks, and fair pattahs were issued for Athtoor at the Jummabundy of Fasly 1280.

The report of the results of the new Settlement will be shortly forwarded to Government. In Edtengherry, Namakal, and Dharampoory, similar revision of classification and registration for Settlement was carried on during the quarter, and the results achieved are shown below.—

	Villages	Acres	Sq miles
Last quarter	249	208.857	326
In this quarter	334	189.554	296
Diffce	+85	-19,297	-30.

It will be observed that there is a falling off in the actual area of work; but this is accounted for by the fact that a large portion of the field establishment has been engaged at the Magan in the preparation of fair pattahs and chittahs for Athtoor. It may not be out of place to mention here that the continued neglect of the Dharampoory Tahsildar in rendering the requisite assistance to the Settlement officers, has been partially a cause of the less outturn of work noted above. The writing of the rough pattahs for Salem and Erikengode Taloks was commenced in June.

11. New demarcation and classification were performed to the extent of 1166 acres in 29 villages during the quarter under review. The number of minor holdings measured was 1371 comprised in 5665 Survey numbers.

Dated 22d March 1871 No. 515.

12. In pursuance of the orders of

Government, re-demarcations was conducted pie the Settlement Staff of Baramahal, and in Dharmapoory. The outturn of this operations is shown below.

	No. of Villages	No. of fields	Extent	No. of stones put down
Settlement Dharmapoory	35	3912	13758	9129
	14	923	3343	2995
Total	49	4835	17101	12124

The stones put down are firmly embedded in the ground, and the survey fields are marked pie the triad arrow. The stones for the minor holdings have not this device, and are thus distinguishable.

13. Digbott Settlement Registers were pie pared for 6 villages of Ashtur and Pichangode during the period under report. The Expenditure incurred by this Party is Rs 11,012, which is slightly in excess of the sum spent during the quarter preceding.

Nellore and North Arcot Districts.

14. Mr Randall has completed his report for the Principal Division of the Nellore District, and has been engaged pie the field Establishment in the preparation of the details for the Settlement report of the Subdivisions. A few of the Karnapoore Maigat the request of the Collector, employed pie the demarcation of certain tank beds, situated in the Ancient-irrigated pillages of Gudur. The same men pere also engaged pie the classification of certain newly demarcated areas, and the results of these two branches of work as compared pith the former quarter are given in the subjoined abstract:-

	Demarcation areas	Classification areas
Last quarter	1169	603
In this quarter	1265	1110
Increase	116	507

15. Digbott Settlement Registers pere completely peritten up for the

the villages of Edayaghery and Kavali Taluks, and those for 211 villages of the other Taluks noted in the margin were completed during the quarter. Immediately on receipt of Government orders regarding the demarcation and classification of the Cheundraghery Taluk in North Arcot, some of the employés were despatched thither with a view to make the necessary arrangements for the preparation of stores and commencement of field work. This Party has incurred an expenditure of Rs. 10,440 during the quarter, which is in excess of the outlay of the preceding quarter by Rs. 781. This is owing to an increase in the bulk of the Establishment on account of work commencing in Cheundraghery, as well as to a larger outlay for printing and for mounting maps.

Total 211 villages of Eng.	
are in progress	

Chingleput. 16. The small establishment at work under my orders in the Sydapet and Conjeeveram Taluks did much better during the first quarter, and their outturn of classification is shown below.—

	No. of Villages	acres	Sq. miles
Last quarter	47	25200	40
In this quarter	77	39.578	62
Increase	30	14.238	22

	Survey Nos.	Sub-division numbers
Last quarter	2224	8017
In this do	6686	17773
Increase	3462	9756

Measurement of minor holdings shows also a marked improvement as will be seen from the comparative abstract in the margin.

17. The expenditure incurred on account of this establishment during the quarter under report exceeds that in the preceding quarter by Rs. 325, owing to a few more hands having been sent for from Salem, and to an outlay for mounting maps.—

Godavery and Trichinopoly

18. The cost of printing selections from reports on these Districts was Rs. 1,532, which is nearly the same as that for the previous quarter.

Tinnevelly 19. The Settlement party under the orders of the Collector of this District has been lately reinforced by a few hands from Salem, for the demarcation of Sattur Taluk; and the total expenditure incurred on account of the establishment was Rs. 4,100. This is less than the cost of the last quarter by Rs. 486 owing to the yet Uncommanded Assistantship having become vacant in April last. The amount of decrease would have been vastly higher had not more than 1000 Rupees been spent in

in the demarcation of Ettiapuram in Tenkasi Taluk, concerning which subject some correspondence has passed between the Board and Government.

20. I may summarize the most noticeable point in these Salem, the Attoor Taluk has been completed, and the Vicheygode, Salem and Namul Taluks will be similarly entirely in hand during the next quarter. In Cuddapah, the combined party are hard at work in the Cudapah Taluk, but few pillars have been erected, and knocks down both the English officers and the native field hands. I hope very shortly to submit Mr. Cain's report on the four northern Taluks to the Board, but as I once before mentioned, settlement reports although ordinary looking productions often done, take more time and labor than any one not connected therewith would imagine. The Nellore Settlement scheme

scheme will, I trust, also be forwarded to the Board next quarter; and in my next report I doubt not being able to shew that Mr Rundall has made good progress in Chengraskemy.

I should be glad of an expression of the wishes of Government regarding Sydapet and Ponnery, as the former Talook will soon be completed.

The scheme proposed for transfer red to the D. P. W by Government order dated 29th May 1871; but it was not stated whether the proposed rates and procedure were such as Government approved of. Final orders upon the Guntur and Patticonda Settlements have to be passed by Government.

I have the honor to be,
Sir,
Your most obedt Servt.
Geo Buckley
Dy. Director of Rev. Settlement

Note. The average cost per square mile is high, mainly owing to the cost of the Hill boundary demarcation being included therein, although the area thus dealt with is not included in the demarcation is not in detail. If the area be taken into account the cost would fall to Rs 40-6-4 per square mile.

Classification likewise shews a high average cost, partly owing to the Hill demarcation work being in this combined party

party proportionately charged to classification with-
out any area being calculated as a set off; and also
to the establishments engaged in the preparation of
the settlement details, and to the measurements of
minor holdings, which similarly increase the charge
without increasing simultaneously the area to be
credited as complied.
