The quantity to be indented for should not be less than the quantity last supplied (35 lbs.); but this will be left to the Inspector-General to decide.

3. A copy of the Board's Proceedings, showing receipts and issues of the last supply of Quinine and Chlorodyne, will be submitted for the information of Government.

Sir,

With reference to the Proceedings of the
Board N^o 292 of the 27th Ultimo, I have the honor
by desire of the Inspector General to inform you
that the balance of chlorodyne, now in the Medical
Stores is not much in excess of the prospective
demand for Hospitals. So much of it as can be
spared, however will be given on loan to Revenue
Officers indenting for the article, and I am to sug-
-gest that in the meantime it would be advisable
for the Board to make an emergent indent on the
Home Government for a further supply.
