No. 9. Read the following Proceedings of the Board of Revenue, dated 25th January 1871, No. 401 :—

Read the following letter from the Collector of Malabar, to the Acting Secretary to the Board of Revenue, dated Calicut, 3rd November 1870, No. 370.

With reference to the Board's endorsement, dated 24th August last, No. 561, on the Order of Government, Revenue Department, dated 8th idem, No. 1,193, I have the honour to state that the object in proposing that merely the landlord's share should be devoted to the endowment is to secure to the Endowment Funds the essential elasticity, without which they cannot, for a series of years, continue to meet the growing increase of charge which the rise in price of labour is likely to necessitate. Such portion of the endowment must necessarily be provided as will meet the increase. It seems profitable that, when sufficient land is available from which to draw the total amount as landlord's share, this course should be adopted.

Since the above letter was submitted two other choultries noted* have been completed, so that the whole number to be provided with endowment is seven, including the five already reported as completed.

- * 1. Peria
- 2. Pattambi.

I have, therefore, the honour to submit revised lists of escheat lands. List No. 2 shows lands, the proprietor's share on which amounts to Rs. 421-2-10; List 1 shows lands, the combined assessment and landlord's share on which amount to Rs. 421-1-6. It will, therefore, be only necessary to sanction one of these lists according as the question may be decided by Government.

The lands are all situated near each other in one amshom of the Ernaad Taluq.

With reference to the Board's endorsement, dated 24th August last, No. 561, on the Order of Government, Revenue Department, dated 8th idem, No. 1,193, I have the honour to state that the object in proposing that merely the landlord's share should be devoted to the endowment is to secure to the Endowment Funds the essential elasticity without which they cannot for a series of years continue to meet the growing increase of charge which the rise in price of labour is likely to necessitate. Such portion of the endowment as may consist of Government assessment must necessarily be, to a great extent, a fixed quantity, and for this reason it seems preferable that, when sufficient land is available from which to draw the total amount as landlord's share, this course should be adopted.

Since the above letter was submitted two other choultries noted* have been completed, so that the whole number to be provided with endowment is seven, including the five already reported as completed.

the part of Govt.

2

The collector reports that his reason for originally recommending the adoption of the latter principle was that he would thereby secure for the Chaultries a more valuable grant. The landlord's share is a quantity which may be presumed to increase yearly, while the government assessment is practically stationary. If the whole amount required for endowment is made up of funds which have a tendency to expand, it is evidently better for the endowment than if only

a certain portion of the funds have that tendency.

3

The Govt. see no reason for this exceptionally favourable treatment of the chuttrams in Malabar, and it is besides advisable that the revenues of these institutions should be derived from as small an area of land as will yield the necessary funds. They therefore resolve to sanction the endowment of the five chuttrams referred to in the collector's letter dated 11th May 1870, as well of the two which have since been completed on the principle of assigning to them both landlord's share and

ement, as provided for in

By G. O., No. 1,193, dated 8th August 1870, Government called upon the Board to consider whether in endow-
