Proceedings of the Madras Government, Revenue Department, 21st March 1871.

No. 285. Read the following Proceedings of the Board of Revenue, dated 3rd March 1871, No. 944 :—

Read again Board's Proceedings, dated 20th December 1870, Miscellaneous No. 2,053.

Read also the following letter from the Collector of Kurnool, to the Acting Secretary to the Board of Revenue, dated 4th February 1871, No. 25.

In reply to Board's Proceedings, dated 20th December 1870, Miscellaneous No. 2,053, I have the honour to forward the Descriptive Roll of Yeomiahdar Karim Mohadin Sahib. He intends to proceed in the first instance to Hyderabad, where he will reside eight months, and then to go to Madras and live there for the remaining four months.

Descriptive Roll of Karim Mohadin Sahib, Yeomiahdar, Nundial Taluq, Kurnool District.

Age, 64 years; colour, fair; hair, grey; height, 5½ feet; marks, one black mole by the side of left eye, two moles near the right temple, one black mole below the left elbow, and the neck is a little bent.

(Signed) T. A. N. CHASE,
Collector.

Submitted to Government, with the request that the Descriptive Roll be sent to the Resident at Hyderabad in view to the requisite Life-certificate being granted when Karim Mohadin Sahib presents himself for muster.

No. 286. Order thereon, 21st March 1871, No. 499.

Miscellaneous.

Ordered that a copy of the Descriptive Roll of Karim Mohadin Sahib be forwarded to the Resident at Hyderabad, with a request that the required Life-certificate may be attested by the proper authority.

(True Extract.)

Proceedings of the Board of Revenue

dated 20th December 1870

Read list of Yeomiahdar who applied for leave of absence received from the Collector of Kurnool dated 28th October 1870.

The Board grant to Hareem Mo=hadin Sahib, leave of absence for one year to pro=ceed to Madras and Hydrabad, but as the grants are for life only the Collector will be good enough to submit a descriptive roll of the incumbent as required by Standing Circular No 174

During his absence the allowances may be paid in arrears to the Deputy Khajah Nazah on the pro=duction of the requisite life certificate-

The Collector will also be good enough to ascertain and report whether the applicant intends to proceed in the first instance to Madras or Hydrabad and for what period he purposes residing at each place-

Proceedings of the Madras Government, Revenue Department,
21st March 1871.

No. 288. Read the following Proceedings of the Board of Revenue, dated 27th February 1871, No. 869:—

Read the following letter from the Collector of Kurnool, to the Acting Secretary to the Board of Revenue, dated 14th December 1870, No. 417.

I HAVE lately had on my mind the unsatisfactory state of the repairs of the roads undertaken by the Revenue Department, and feeling it was necessary, before any measures could be adopted on the subject, for me to examine personally as many of these roads as possible, I lately made a tour in the Nandikotkur Taluq, and inspected all the roads connected with the canal-crossings.

2. On the 22nd November I inspected the road from Pudur bridge to Bapankotkur (No. 191). I found it overgrown with grass, and here and there patched up with large stones. It had been breached in many places by the rain, and no repairs to the breaches had been made.

3. On the 23rd November I rode with Mr. W. Fraser, Range Officer, from Nandikotkur over the road to Allur. The road was so bad that we could not take our horses out of a walk. The only repairs apparent were a few large stones strewed carelessly about, and a few heaps of gravel on the sides. The road goes to the east of the village of Allur, but the aqueduct to which it should go is several hundred yards on the west of the village. This aqueduct was intended as a canal-crossing, but as it was intended also for the passage of water from a hill-stream and no pathway, or any means for the passage of traffic having been afforded, it is perfectly useless as a crossing, and in its place a second class bridge should be constructed.

4. From Malyala to this Allur road another road joins. Its condition is precisely similar to that of the Allur road.

5. On the 25th November I rode along the road from Nagatur towards Bijinivemula. This road only goes towards the village, and breaks off where it is most wanted to assist traffic over a hill-stream, quite impassable during the rains. The repairs on this road are very badly done.

6. On the 26th November I went over the Morakonda road, which is on the north-west side of a second class bridge made by the Company over the canal. The repairs on it also are very badly executed. This road leads really no where.

7. On the 27th I inspected the road from the Muchumarry culvert to the village. This road is perfectly useless, and the repairs to it bad. The culvert is inaccessible, a human being cannot pass through it; it is very low, and in it there is loose mud, several feet in depth. The canal here cuts off about 3,000 acres of the cultivated land of the village from the village-site, and were it not for the breaches which have taken place every year, the ryots would not have been able to cultivate this land, because they would have no means of crossing the canal to get to it. The Company should be compelled to construct here a second class bridge for traffic of all kinds.

8. On the 28th I saw the road from the culvert at Pagadala, which runs towards Sunkarnenipalli. The road has its commencement about six feet abruptly above the way, from the flooring of the culvert, and in its present state is perfectly useless, and the expenditure of money for its repairs a mere waste.
