Dated	20.4.1871.	

Not to be folded or roughly handled

*Proceedings of the Madras Government, Revenue Department,
20th April 1871.*

No. 217. Read the following letter from the Government Quinologist, to the Secretary to Government, Revenue Department, Fort Saint George, dated Ootacamund, 13th April 1871:—

I HAVE the honour to enclose a copy of a letter received from the Principal Medical Inspector-General.

2. I am unable to answer the included question, not being acquainted with the full intentions of Government on the sale of the Amorphous quinine. As a matter of fact, I find the actual cost of making the 97 lbs. last year averaged Rs. 2-3-0 per ounce; it being made of the bark of prunings only, supplied intermittently, and which contains a very small per-centage of alkaloid.

3. As the total cost, when made on a scale of 800 lbs. per year, using average bark, will not exceed Rupee 1 per ounce, I would suggest that the price now charged be Rs. 1-8-0. But in this matter I await the orders of Government.

ENCLOSURE No. 1.

From the Inspector-General, Indian Medical Department, to the Government Quinologist, Ootacamund, dated Fort Saint George, 28th March 1871, No. 1,351.

REVENUE Officers having requested to be informed of the price of the Amorphous quinine, with a view to recover the cost of such quantities as may be supplied to the people on payment, I shall feel obliged by your furnishing me with the information at your earliest convenience.

No. 218. ORDER THEREON, 20th April 1871, No. 710.

Miscellaneous.

THE Government accept Mr. Broughton's recommendation that the price of the "Amorphous quinine" sold to the public be, for the present, fixed at Rs. 1-8-0 per ounce.
