Tenkarei Dalavoypuram.

"7 years' average 6 cottahs, current Fasli 3-7-1, has been assigned."

Enclosure No. 1.

Abstract.—A list showing the cultivation and price of the paddy for Fasli 1273, in the villages in which grain (Pore Pichai) is allowed for the repairs of Tirukurangudi Alagianambirayer Pagoda Nandavanam, Nanguneri Taluq.

Enclosure No. 2.

Abstract.—Statement showing the total beriz and particulars of reduction made in the Jeer Matam Village for Fasli 1273.

Enclosure No. 3.

Abstract.—Statement showing the deductions made in the Jeer Matam village for a series of years in grain and their corresponding value in Rupees.

These papers relate to a grain-allowance due to a certain pagoda in the Nanguneri Taluq. Its average value is given at Rs. 199-0-10, though from the figures in Enclosure III. of the Collector's second letter the correct amount seems to be Rs. 198-7-10. It appears to have been paid latterly by allowing it to be deducted from the quit-rent of the village of Jeer Matam.
