*Proceedings of the Madras Government, Revenue Department,
25th January 1871.*

No. 349. Read the following Proceedings of the Board of Revenue, dated 12th January 1871, No. 151 :—

Read the following letter from the Officiating Collector of the Kistna District, to the Acting Secretary to the Board of Revenue, dated Narsarowpet, 26th November 1870, No. 4,981.

I HAVE the honour to report that some years before the introduction of the new Survey and Settlement rates into the Masulipatam portion of the district, one Chukur Ramaswamy of Masulipatam rented the village of Rudravaram in Bandar Taluq under the then existing joint-renting system. The whole rent was formerly from 50 to 200 Rs., including the sist of wet lands. Acres 103 of wet land were cultivated with wet crops in Faslies 1273, 1274, and 1275, but the cyclone of 1864 destroyed the crops in Fasli 1274. In Fasli 1273 the whole rent on the village, Rs. 200, was paid. In Fasli 1275 the assessment was remitted as the lands were entirely unfit for cultivation. In Fasli 1276 the new Settlement rates having been introduced, Ramaswamy took up acres 142-78 of the dry land. The wet land has never since been cultivated, having been deteriorated by sea-water. In the current Fasli 1280 Ramaswamy made a darkhast

2nd...	„	0 12 0
3rd...	„	0 8 0

for cultivating 103 acres of wet land. The assessment of this land, according to Settlement dry rates,* is Rs. 94-14-0. Ramaswamy requests that he may be

permitted to cultivate the lands with wet crops under channel-irrigation for three years without payment of water-cess, in view to making the lands cultivable and get rid of the chowdu (saline deposit).

2. I have, therefore, the honour to request the Board will be pleased to sanction the gratuitous supply of anicut-water to the lands in question for a period of three years, for the purpose of eradicating the saline efflorescence that now injures the land ; in the meantime, the dry assessment will be collected. From the fourth year the dry assessment and fixed water-rate will be paid by the applicant.

SUBMITTED for the favourable consideration of Government.

2. The case is similar to that brought to the notice of Government in Board's Proceedings, 22nd November 1870, No. 6,779.

No. 350. ORDER THEREON, 25th January 1871, No. 169.

Irrigation, No. 4.

THE Collector's proposals are sanctioned on the understanding that the water can be spared without injury to

any wet cultivation. The results of the experiments should be periodically inspected and noted by competent officials.
