*Proceedings of the Madras Government, Revenue Department,
31st January 1871.*

No. 418. Read the following Proceedings of the Board of Revenue, dated 14th January 1871, No. 200:—

Read the following letter from the Acting Sub-Collector, to the Collector of Cuddapah, dated Gurrumcondah, 17th November 1870, No. 414.

In reply to paragraph 7 of Board's Proceedings, recorded in Government Proceedings, Revenue Department, communicated with Board's Proceedings, No. 4,175, of 15th June 1870, I have the honour to submit the financial result of the new assessment of the land under the Nawabpett Tank.

2. The collections on Circar lands under the tank for the five years previous to the breach were as follow:—

							RS.	A.	P.
Fasli 1270	...	...	...	...	...	...	598	12	9
„ 1271	...	...	...	...	...	...	493	9	5
„ 1272	...	...	...	...	...	...	455	14	9
„ 1273	...	...	...	...	...	...	407	4	11
„ 1274	...	...	...	...	...	...	566	6	10

giving an average collection of Rs. 504-6-6 annually.

3. Under the present arrangements now sanctioned, the 36 acres of Government land irrigated by the spring-channel, reduced to Rs. 10 as a maximum, should produce Rs. 360-7-3; the remaining 31 acres of the wet ayacut given on the highest dry assessment of the village, at Rs. 1-12-0 per acre, will produce Rs. 54-4-0.

4. Of tank-bed to be assessed, there are in all 87 acres, of which only 2 are stated to be fit for a higher than the average dry assessment of the village. These 2 acres have been assessed at Rs. 2-6-1 per acre, and the remaining 85 acres at Rupee 1, making a total of Rs. 89-12-2. The whole assessment that should be derived from the lands under the tank and its bed amounts to Rs. 504-7-5 as nearly as possible the same as the collections under this tank before it breached.

5. It may very possibly take some time before all this land is taken up, but there is every expectation that such will be the case eventually, and in the mean time the assessment of every portion that is taken up is a clear gain to the revenue.
