SIR,—I am directed to request you will call the attention of Mr. McIvor to the statement made by Mr. Monro at page 982 of the supplement* to the *Gazette of India* dated 8th July 1871, that the first cuttings of Cinchona received by (apparently) the Darjeeling Association at Pomony were "from the Nilgiris, and were extensively affected with canker," and to the remark at paragraph 4 of Mr. Secretary Hume's letter (App., page 1,000), that the disease which has attacked the plant at Rungbee "is shown to have existed in the plants originally sent up from the Nilgiris as stock for the Sikkhim plantations."

2. The Government will be glad to receive, through you, any remarks on the subject which Mr. McIvor may wish to submit.

I have the honour to be,
