

*Proceedings of the Madras Government, Revenue Department,
28th June 1872.*

No. 298. Read the following letter from Major R. H. BEDDOME, Conservator of Forests, to the Secretary to Government, Revenue Department, Fort St. George, dated 14th June 1872:—

I HAVE very nearly completed the *Flora Sylvatica* for this Presidency. It is to be complete in 26 numbers, and 24 are now finished (the 22nd is just issuing from the Press, and 23 and 24 are in the hands of the lithographers). Every important tree has been figured, including many quite new to science, and at least one species of every different genus; most of the drawings have been executed from living specimens, and the labour of the dissections and the letter-press of the work have occupied my time for the last three years to the exclusion, I may say, of every other pursuit, except my regular office-work, as I have always given five or six hours daily to the work. I request, therefore, that you will lay my services in this direction before Government for their favourable consideration. Nos. 25 and 26 of the work will be somewhat delayed, owing to my being obliged to proceed on leave, but they will, I hope, be completed before the end of the year.

No. 299.

ORDER THEREON, 28th June 1872, No. 1,003.

Forests, No. 20.

THE Government recognize the value of the services rendered by Major Beddome in the preparation of the

Flora Sylvatica in addition to his regular duties.

2. This special work has entailed on him much additional labour during the three years last past, and has been brought to the verge of a successful conclusion.

3. The Accountant-General is authorized to pass to Major Beddome a gratuity of Rs. 2,000, payable on the issue of the last part of the work which is expected to take place before the close of the current year.

4. The charge will be debited to "Forests."

(True Extract.)

Sir,

I have very nearly com-
pleted the "Flora of Ontario" for
this Proj. - it is the complete in
26 numbers, & 24 are now in
(the 22nd is just issuing from the
press & 23 & 24 are in the hands
of the lithographers) Every important
tree has been figured including
many quite new to science & at
least one species of every different
genus, most of the drawings have
been executed from living specimens
& the labor of the dissections on
the latter part of the work have
occupied my time for the last
3 years to the exclusion of every

25. 26 & 27 of the work will
be somewhat delayed owing to
my being obliged to travel
very soon but they will I hope
be completed before the end of
the year.
