Letter Collector Coimbatore 21 Oct 1872

to the Commissioner the opinion of the Conservator stating that the forest referred to ought to be reserved because there is but little forest land at Munjacombay and desired to be informed of the position of the applicants and whether they were possessed of means to cultivate the lands applied for with special products such as Tea &c.

The applicants are poor natives who adopt the cultivation of the potatoe for a living. They are believed not to possess capital and it is anticipated that if they are granted the lands they apply for, they will fell the forest on it, sell the wood and cultivate the soil with a potatoe crop.-
