Dyspepsia

John Henry Carstin. Esqr. Ætat 33 years. Madras Civil Service
Residence in India ... 14½ years.
Temperament Bilious
Habit Temperate

Summary

Fatigue, depression, and prostration after work of a mental kind, inability to fix his mind for any length of time on a subject, want of energy, without a great effort to meet his daily current work, all the result of hard work, and long residence in India. Recommended leave to England for 2 years.

This Gentleman complains that he now always feels fatigued, depressed, and a sense of prostration after work. He says that to get through his ordinary current work causes him very considerable trouble that in fact it requires a great effort on his part to summons up sufficient energy to meet and dispose of all his daily work. He states that he finds it necessary to read over simple papers more than once before he can grasp the meaning, and moreover that he is unable to fix his mind for any length of time on a particular subject.
