Add charges not debitable to the parties	"	"	"	"	"	2975	- - -	
Grand Total	-	"	"	"	"	62448	- - -	

* The cost is high owing to work falling off as a new Taluq was entered upon. In North Arcot the cost should decrease now that the old style of demarcation has been sanctioned.

Revenue Settlement Office
Madras
29th May 1872

Director of Revenue Settlement

Comptd D.R.

Revenue Settlement Office

No. 1569 Cloonad.

49 29th August 1842

Sir, I Respectfully Forward

Herewith the Settlement

Certificate of the Collector

General of Inland Revenue

Revenue Department

Dublin

Castle the Honor to ac-

quaint the Board that

in Settlement for the

fifth Quarter of the present

official Year, comprising the

months of April, May and

June.

2. Received, the sum of

Forty Eight pounds Seventeen Shil-

lings and Nine pence Sterling the

Remittance, Certificate for

and

and levels of lands newly
taken up, and the results
contrasted favourably with
those of the previous years
as will be shewn.

Items	Last year to this year's difference					
	Acres	32nds	Acres	32nds	Acres	32nds
Demarcation	12336	25	12340	25	+3	0
Classification	22123	16	19443	04	-2680	12
Survey	24053	26	26284	14	+2230	28

In the Classification & Survey
are included the Lands
taken up in the Rakaia Valley
which had been previously
classified, having been re-
cently demarcated, and there
only the latter work was
performed, except the
measuring of a few
sections. The
remainder of the
Survey

[illegible] of clock
taking the paper of
Year. Date

came to hand
the previous month.

2. In office in addition to
the usual task of preparing
the necessary accounts
connected with the survey
classified and surveyed
lands, the new assessments
were calculated and after
to 6,578 Survey fields in 190
Valleys, the new assessments
would have to be done when
the new portions were finished
as it was conjectured that
no alterations would be
made in the rates of the
Eyeland, by Government,
taken placing their final
orders. As the conjecture has
proved true, much time has
been

been raised.

The Proceedings of Government sanctioning the settlement scheme for the Eastern portion of the Kistna Delta received on the 30th February last, and on the 2nd of the following month the Acting Government Agent of Vizagapatam & Rajahmundry & Collector of Godavery & Kistna was requested to submit to Government a Report & Estimate for the construction of a Temporary Establishment for the Irrigation of the Delta during the ensuing season.

The Report & Estimate were submitted on the 30th March last, and on the 2nd April following the Acting Government Agent was requested to submit to Government a Report & Estimate for the construction of a Permanent Establishment for the Irrigation of the Delta during the ensuing season.

The Report & Estimate were submitted on the 30th April last, and on the 2nd May following the Acting Government Agent was requested to submit to Government a Report & Estimate for the construction of a Permanent Establishment for the Irrigation of the Delta during the ensuing season.

The Report & Estimate were submitted on the 30th May last, and on the 2nd June following the Acting Government Agent was requested to submit to Government a Report & Estimate for the construction of a Permanent Establishment for the Irrigation of the Delta during the ensuing season.

The Report & Estimate were submitted on the 30th June last, and on the 2nd July following the Acting Government Agent was requested to submit to Government a Report & Estimate for the construction of a Permanent Establishment for the Irrigation of the Delta during the ensuing season.

The Report & Estimate were submitted on the 30th July last, and on the 2nd August following the Acting Government Agent was requested to submit to Government a Report & Estimate for the construction of a Permanent Establishment for the Irrigation of the Delta during the ensuing season.

The Report & Estimate were submitted on the 30th August last, and on the 2nd September following the Acting Government Agent was requested to submit to Government a Report & Estimate for the construction of a Permanent Establishment for the Irrigation of the Delta during the ensuing season.

The Report & Estimate were submitted on the 30th September last, and on the 2nd October following the Acting Government Agent was requested to submit to Government a Report & Estimate for the construction of a Permanent Establishment for the Irrigation of the Delta during the ensuing season.

The Report & Estimate were submitted on the 30th October last, and on the 2nd November following the Acting Government Agent was requested to submit to Government a Report & Estimate for the construction of a Permanent Establishment for the Irrigation of the Delta during the ensuing season.

The Report & Estimate were submitted on the 30th November last, and on the 2nd December following the Acting Government Agent was requested to submit to Government a Report & Estimate for the construction of a Permanent Establishment for the Irrigation of the Delta during the ensuing season.

The Report & Estimate were submitted on the 30th December last, and on the 2nd January following the Acting Government Agent was requested to submit to Government a Report & Estimate for the construction of a Permanent Establishment for the Irrigation of the Delta during the ensuing season.

The Report & Estimate were submitted on the 30th January last, and on the 2nd February following the Acting Government Agent was requested to submit to Government a Report & Estimate for the construction of a Permanent Establishment for the Irrigation of the Delta during the ensuing season.

The Report & Estimate were submitted on the 30th February last, and on the 2nd March following the Acting Government Agent was requested to submit to Government a Report & Estimate for the construction of a Permanent

explanation of the Boundaries
from the annexed Statement.

Items	Last quarter Acres	Last quarter Miles	Difference Acres	Difference Miles
Remainder	99999	156.5644	89	43524 60
Classification	83681	131.4993	70	38654 61

1. The number of fields entered
as remaining unreaped at last
year is less than the num-
ber entered as sown, by
reason of deficiency, or con-
cealment, and on
which the assessment was
paid to the Treasurer of
the Province of Pallisandia.

Particulars	Last Estimate quarter	Last Estimate quarter	Difference
Wheaten flour	5,338	4,536	4,302
Rye flour	725	1436	341
Barley flour	2878	3734	895

2. Each article of flour shall be
liable

grinding power of the Mill
Heads, and the Secretary
Rees may also call for the
Record. The fee to be
one of four dollars per
month, but a larger sum
may be charged, for
the Secretary may in the ad-
justing of the fee to the
Assessment have regard
to the Circumstances
altered how to grind the grain
in a neat and proper manner
6. Fifth December next pro-
vided as follows.

Particulars	No. of Millers	Gross Rate
Government	11	10,856 17
Afforestation	4	4,296 17
Total	15	15,152 14

and the Lands had to be taken

of the Mc Clure and Fuddaka-
kah Tea country lepie during
the Pudiffeete between the
Vancouver Bay and Calcutty
Lam a stranger, could dolyed
matters. Alleyi therefore
been told to settle matters
pender the Act, as it is hope-
less to expect the latter
General or to come to my
assistance.

2. The Pudiffeete Chief
and Jeparate Tea Country
Chiefs were first seen
the second week after
Pellampete and the total
settlement under the head
was to Pellampete completed,
and by evening they, during the
Jaunter.

3. The measurement of
previous Pellampete Cultivation
was

Jamalamadugu

and Pullampete and Cuddapah
respectively Clear, and the
result is noted the same as
that of the preceding year.

Estate	Jamalamadugu			Pullampete			Cuddapah		
	As of No 1	As of No 2	As of No 3	As of No 1	As of No 2	As of No 3	As of No 1	As of No 2	As of No 3
	During 4th Quarter	4th Quarter	4th Quarter	During 4th Quarter	4th Quarter	4th Quarter	During 4th Quarter	4th Quarter	4th Quarter
	Fields	Acres	Fields	Acres	Fields	Acres	Fields	Acres	Fields
Jamalamadugu	330	934	496	1306	+157	+372			
Pullampete	862	2463	575	1476	-347	-989			
Cuddapah	-	-	-	112	195	+112	+195		
Total	1201	3397	1123	2978	-78	-422			

4. The three Villages, the Registered
Register, Jeedigadu and
remained incomplete for
the whole of the Financial year.
Two new Registers, one each
for Pellampete and Cuddapah
were opened during the
year.

5. The cost of the Establishment
for

falls below that of the pre-
vious quarterly Rs 1822
as shewn below, owing to
less outlay on account of
secondary feilaes, and de-
creasing settlement Registers.

	Amount Rs
Last quarter	23.993
1st three quarters	22,171
Decrease	1822

10. Feilaes and forbearers

All Cuddalore party were
principly engaged in the stealth
of sheep & cattle & in plotting
Salig, and the out-turn is
on the whole much the same
as that of the preceding
quarter, the good daily en-
counter per diem remains of
82 accused stand convicted
out of 100 cases in classification

Leaving

fjelleare was submitted to the Central Office for all the necessary accounts.

12. The cost of this party was Rs 10,934 or £ 361 less than that of the preceding three months, owing to there having been practically incurred no account of printing or incentive prizes.

13. Salem. The remeasurement classification and fixation of rent by the Settlement Officer was carried on in the Salem taluk, and the results stand thus.

Items	Last quarter	Settlement quarter	Difference
No. of villages	8	241	+ 233
No. of survey fields	1257	34,799	+ 33,542
Area classified	2807	111,815	+ 109,008

Besides this 20 items, miscellaneous fields

field work as shown below was carried on to the following extent.

1. New demarcation, classification and survey.

	Acres	Rate per Acre	Value Rs
Last quarter	1341	2.10	3371
In this quarter	897	1.40	1642
Difference	-444	-0.70	+1271

2. Measurement of interested fields.

Items	Last quarter	In this quarter	Difference
No. of villages	37	267	+230
No. of survey fields	170	2072	+1962
No. of sub. divisions	281	4528	+4247

3. Restoration of demarcation

	No. of marks
Last quarter	46,938
In this quarter	11,957
Decrease	34,981

Re-fixing of pillars to be attended to this year

4. Removed only extending one Taluq during the last

Quarter

quarter, pubereas in the pre-
ceding both Ettenberg and
Bharampoary were dealing
dealt with. I had an op-
portunity of closely seeing
a good deal of this renewal
work in Bharampoary, and
the Magistrate is paying a
good deal of attention
thereto. The old remark-
ton in the Uplands is better
than I had expected, and
the trees only want mark-
ing with the arrow, and
keeping clear than at pre-
sent in many instances, but
in the outlying districts matters
are far worse, and the Up-
keep and preparing good

square

square stones of proper
length; so that the demarca-
tion of tracts under tanks
and channels may now be
rendered permanent and
satisfactory.

14. I have already reported
to the Board and Government
that during the quarter in
question, the new rates were
printed and issued to Tamuk,
Erakengode, Salem and
Ettenberg, and the Govern-
ment Proceedings dated
20th August 1912 No 1234,
show that the result is deem-
ed satisfactory. On the 15th
of June, classification began
in the Perintharay Taluq of
Coimbatore by a small party
in charge of the Deputy

Collector

Assistant Director working under the Salem Party will be transferred to the former District under their work in the latter area to a close.

15. As regards the working of Depôt Registers, the following Villages were completed during the quarter.

Taluks	No. of Villages
Salem	109
Namakal	42
Tiruchengode	71
Attanjeery	200
Total	422

and 57 Registers appertaining to the villages were sent to the Central Office for being finally examined and subsequently printed.

16. The work of the Salem Party

Party stands thus

	Amount Rs.
Last quarter	14,737
In this quarter	13,755
Decrease	982

Which shows a decrease of Rs. 982 owing to the Deputy Director's deputation allowance alone being debited to this Department during the Quarter under report.

17. Stereotyping. The four remaining Villages of Pomery were completed early in the quarter, and the fields handed over into Stereotype, where they showed a good out-turn when compared with that of the previous quarter.

Particulars	Last quarter	In this quarter	Difference
No. of Villages	41	81	+ 40
Area classified in acres	29566	49914	+ 20348
No. of Lithos printed	46	78	+ 32

Work

But it must be stated that the results of the previous three months were [illegible] owing to three legitimate causes:-

1st. Experiments made on an extensive scale during the harvest which stopped field work.

2nd. The closing of the accounts in the Bonnery Taluq which the field Landpeons were about leaving.

3rd. The conversion of the reports on the Khambandam Land Lands which also hindered field work.

18. The measurement of Armenar Kalangra similarly shows well, and the Patel Volunteer measure and calculate the area of forty of these interested fields

fields per diem.

Particulars	Last quarter	Latter quarter	Difference
No. of Villages	38	77	+ 39
No. of Survey fields	4,688	9849	+ 5761
No. of sub-divisions	15,869	27,425	+ 11,556

Looking at the cost of this small party, there is an increase of Rs 31 as shown herewith.

	Amount of Rs.
Last quarter	3715
In the quarter	3746
Increase	31

19. Finance Cly. The outlay in this district is debited to the Settlement budget although the work is all punds Mr Ruttle. There is an increase of Rs 880, owing to payments having been made to certain demarcators in the month.

20. Establishment. The Acting

Inspector of

Encouenanted Assistant in the District is apparently making good progress in the preparation of the Assessment accounts and rough plans appertaining to the new rates, and will have plenty of settlement work ready for introduction on against the Taxi arrivals in October. Surveyor Lally's progress is being made in Pulvendla, the last Taluq of the District, and Major Stuart is engaged on his report for the assessment of Rs. 1,000, Pullampet and Sidhout. In South Arcot and Salem, the Revenue Surveyors are fully employed in

on the Chittoor Taluq of North Arcot, and the settlement report for the last division of Salem, during the past quarter, is now in the Press. Although Salem is not large that the task required much care and attention, the is also carefully watching the restoration of the demarcation. Classification during the Fasli year and the Varadharaja Taluq of Chingleput, and more will be said about these in next quarter's report. Chingleput the field channels have passed

pm

on int Stewellare andare
doing fairpeark in that
Talug. I may finally en-
mark in that the Settlement
Report for the three Talug
of Ikeddekak and Kolfnuka
in Nenana, as well as that
for the Pimeiaka Division
of Kellare, as well as the orders
of Government, the Board
having passed thereon com-
ments thereon.

I have the honor to be,
Sir,
Your most obedient
Servant,

E. A. Lucken
