

*Proceedings of the Madras Government, Revenue Department,
22nd January 1872.*

No. 257. Read the following Proceedings of the Board of Revenue, dated 20th December 1871, Miscellaneous No. 4,729 :—

Read the following letter from the General Superintendent, Public Works Workshops and Stores, to the Secretary to the Board of Revenue, dated Chepauk, 7th December 1871, No. 1,622.

WITH reference to the Proceedings Board of Revenue, No. 4,449, dated 6th instant, forwarding a silk-reeling machine to be put together, I have the honour to report that the machine is erected and ready for the Board's inspection.

THE silk-reeling machine has been set up in the Government Workshops and inspected by Mr. Brandt in company with the Superintendent of the Public Workshops and Stores.

2. It is observed that the machine is for reeling only, and is considered by the Superintendent to have no special merit and to be more expensive than it should be. The Superintendent estimates that he could turn out at the Public Workshops similar or improved reeling machines at little more than a quarter of the cost. The wooden frame is not very strong, and will require strengthening. Owing to bad packing several repairs are required.

3. The Superintendent is requested to have the necessary repairs made, and after packing the machine carefully, it will be despatched to the Collector of Coimbatore.

No. 258. ORDER THEREON, 22nd January 1872, No. 132.

Miscellaneous.

THE machine should be made over to the Superintendent of the Central Jail at Coimbatore for trial and report.

2. A plan of the machine, with measurements, should be taken and kept at the Government Workshops for use in the event of duplicates being required.
