*Proceedings of the Madras Government, Revenue Department,
16th October 1872.*

No. 132. Read the following letter from the Commissioner of the Nilgiris, to the Secretary to Government, Revenue Department, Ootacamund, dated Ootacamund, 30th August 1872, No. 53:—

In Government Order No. 1,941, dated 5th December 1870, the Superintendent of the Cinchona Plantations was directed to ship 3,000 lbs. of Cinchona bark for sale in the open market in England. Under this order 3,188½ lbs. were shipped in July 1871 and 4,106 lbs. were shipped in January 1872. These shipments realized for old mossed Succirubra bark 2s. 3d. per lb. for pharmaceutical preparations and 2s. 7d. per lb. for extract of quinine, for small mossed bark 2s. 6d., and for unmossed bark 2s. 10d. per lb.

2. Mr. McIvor brings to my notice, in a letter dated 27th instant, "that our Cinchona plantations are now capable of yielding much more bark than is required by the Government Quinologist for the manufacture of amorphous quinine. The time has now arrived when considerable harvests of bark may be taken."

3. Mr. McIvor therefore suggests that from 20,000 to 25,000 lbs. of bark should be prepared in the ensuing dry season (November to March) and shipped to England.

4. I have the honour to solicit the sanction of Government to this measure.

ENCLOSURE No. 1.

From Mr. W. G. McIVOR, Superintendent, Government Cinchona Plantations, to the Commissioner of the Nilgiris, dated Ootacamund, 27th August 1872, No. 53.

With reference to G. O. in the Revenue Department, No. 1,941, under date 5th December 1870, I have the honour to bring to your notice that our Cinchona plantations are now capable of yielding much more bark than is required by the Government Quinologist for the manufacture of amorphous quinine. The time has now arrived when considerable harvests of bark may be taken, and I would respectfully suggest that from 20,000 to 25,000 lbs. of bark may be prepared during the next dry season (November to March) and forwarded to Europe for sale in the open market. Should the Government approve of this I shall at once make the necessary arrangements for the collection, preparation, and packing of the bark.

No. 133. ORDER THEREON, 16th October 1872, No. 1,433.

Miscellaneous.

THE Governor in Council approves the proposal to consign from 20,000 to 25,000 lbs. of Cinchona bark to the

Home Government for sale in the open market in the coming season, and desires that the necessary steps may be taken for the purpose.

2. In connection with this proposal the Commissioner's attention is called to the Secretary of State's despatch of 8th August 1872, No. 28, communicated to him with a separate G. O.

(True Extract.)

(Signed) W. HUDLESTON,
Secretary to Government.

Sir,
 With reference to G. O. in the Rev.
 Dept. N^o 1941, under date 5th December 1870,
 I have the honor to bring to your notice that,
 our Chinchona plantations are now capable
 of yielding much more bark than is required
 by the Government Chemologist for the manu-
 -facture of amorphous quinine. The time has
 now arrived when considerable harvests of
 bark may be taken, and I would respectfully
 suggest that from 20,000 to 25,000 lbs of bark
 may be prepared during the next dry season
 (November to March) and forwarded to Europe
 for sale in the open market. Should the
 Government approve of this, I shall at once
 make the necessary arrangements for the
 collection, preparation, and packing of the
 bark.

I have the honor to be
 Sir,
 Your most obedient Servant
 J. S. M^r Ivor
