* G. O., 21st October 1872, No. 1,453.

In paragraph 10 of their Proceedings, 21st September 1872, No. 1,885,* the Board of Revenue, in asking for "fifty Sykes's hydrometers made in glass," observed as follows:—"A scale, thermometer, set of degree-weights, and

book of tables, should accompany each. If glass hydrometers of this description are not kept at present by the English dealers, and cannot be made or obtained from abroad, the best possible substitute in glass should be got, together with twenty of the standard instruments."

2. It is essential that these particulars should be embodied in the Indent to be forwarded to the Secretary of State; and as this has not been done in the Indent submitted with the Board's Proceedings of 25th October above recorded, it will be returned to them in view to the omission being supplied.

3. The Board's attention will also be called to G. O., 17th April 1872, No. 136.
