Rec'd 21 Sept. 1872 No 1085
Board of Revenue re
asking for fifty hydro
hydrometer tubes and
glasses" observe as
follows: A scale
thermometer, set of de-
gree weights, and book
of tables, should accompany
each. If glass hydro-
meters of this descrip-
tion are not kept at

present

prescribed by the British dealers, and cannot be made or obtained from abroad, the best possible substitute in glass should be got, to adhere to the strength of the standard instruments."

2. It is essential that these particulars should be entered in the Journal to be sent to the Secretary of State, whether the test has been done at the Station with the Bar. Prof. of 25 Deg. above zero or will be returned to them, in case to the Medical Department.

3. The Board's attention will

Note. As the G.O. of 17 April 1872 No 130. provides that the Journal of Meteorological Observations shall be entered up to the end of each month, this Circular will also be called to G.O. 17 April 1872 No 130. J. 12/11
