*Proceedings of the Madras Government, Public Works Department,
19th August 1872.*

No. 307. Read the following docket of the Government of India, Public Works Department, (Account-General,) dated Simla, 24th July 1872, Nos. 626—44 A.G. :—

Copy of the following despatch of the Secretary of State, and its accompani-
ment, forwarded to the Local Govern-
ments and Administrations, and to the
officers of the Railway Branch enume-
rated in the margin, with a request that
the information called for by the Secre-
tary of State in paragraph 2 of his
despatch, in respect to the probable
number of thermometers that will be
required from England during future
years, may be furnished to the Govern-
ment of India as early as possible.

2. Any of the articles in question which may have been indented for during the current year, and which are not entered in the statement prepared by the India Office, should be included in the estimate now called for.

(Signed) P. P. O'CONNELL, Lieut.-Colonel, R.E.,

Offg. Depy. Secy. to the Govt. of India.

From the Secretary of State for India, to the Government of India, dated India Office, London, 29th February 1872, No. 87.

It having been recently proposed by the officer appointed to examine scientific instruments required for Government service in India, that an apparatus should be obtained for testing thermometers, my attention has been drawn to the large number of thermometers recently indented for from India.

2. I annex a statement of the demands which have been received during the years 1869, 1870, and 1871, and I have to request that I may be informed whether there is a prospect of such large supplies being needed in future years.

3. The demand for 582 thermometers, included in the medical indent received from Bombay in 1871, especially appears to call for explanation.

4. Pending your reply the proposed apparatus, ~~sting~~ thermometers will not be provided.
