To

C. E. Stokes Esq
Under Secretary to Government
Fort St. George

Sir

With reference to your Official
Memo of the 16th Inst^l, I have the honor to
inform you that as the present Census is
first that has been accurately made in the
city of Madras, it has been thought desirable
that the report should include a sketch of the
progress of the city and its history since 1640,
with especial reference to population and mu-
nicipal development. In drawing this up
it was found that the code in question contains
the only authentic account of the first system
of police, and it was therefore desired to refer
to it and perhaps republish it. A part has
already been published in Wheeler's

adras in the Olden Time".

You will permit me to mention that in my letter to the Board of Revenue dated 26th October 1871 I wrote as follows:-

"I beg that I may be permitted see the early Settlement reports and other records of the Revenue Board and Government Office in order that it may be possible to obtain the fullest information regarding the population in previous decades, so that a sketch of the progress of population and its true rate increase may be given".

In the Board's proceedings of 1st Dec 1871 this request was sanctioned and and sanctioned "all the proposals made in proceedings above noted. It was in accordance to this permission that I made the request contained in the note referred to by you. Before the arrival of your Memorandum I had also written a letter I now have the honor to enclose, and trust that in addressing the Record Keeper direct I have not violated the regulations of the Office. Should it be so directed I shall be happy to make arrangements for the copying of any documents that may be required without troubling the staff of the Record Office.

I have the honor to be

Sir
