My dear Hamilton

I find myself like
many other collectors is most
anxious. It is hardly
believed how much
of the running-off. The
balance in the running money
is about 50 Yards & I think
I have always had the bag
in my own hands or in
that of a confidential officer.
I think this is a
very important point.

in this District an especially
heavy. in fact I have only
lately been applying to the
Board for a Special Collector
for those branches finding
that even with an Assistant
at head quarters they
could not be properly super-
vised. Forming them into
a special Assistant Collector
I now the Collector has to
undertake his salary. I
only think that considering
the very heavy work in
this District there should

be a Special Assistant at
head quarters who would
find it worth while to
remain. The local funds
have increased the work
in this District beyond
all description and
some relief is given. I
don't think that the new
system can have fair play.

The educational work is
increasing the new act being
added the President with
the British Government down
the river to the
the inspecting officers
General Board of Education

in actual administration as they
have to be continually attending
to the duties of their office
and the business of the
Government.

I have not the least doubt
as to the propriety of the
Board of Commissioners in
the matter, but this is your
concern, and I am sure you
will not fail to give the
Commissioners the assistance
which they are entitled to
in the discharge of their
duties.

Yours very
respectfully
J. M. Smith

Revenue Department.
