

*Proceedings of the Madras Government, Revenue Department,
21st March 1872.*

No. 252. Read the following Proceedings of the Board of Revenue, dated 18th March 1872, Miscellaneous No. 2,033 :—

Letter from W. M. CADELL, Esq., Officiating Collector, Tanjore, to the Secretary to the Board of Revenue, Madras, dated Tanjore, 9th March 1872, No. 104.

With reference to the Order of Government, communicated in Board's Proceedings, Miscellaneous No. 1,586, dated 2nd instant, I have the honour to state that a Census of the Pudukottah territory can be taken by means of the existing establishments of that State. Any attempt, however, to obtain at the same time reliable statistics of area is impracticable, since no means exist for forming even an approximate estimate thereof, much less of its particulars, as culturable, unculturable, occupied, unoccupied, and the like.

2. Should the Government, therefore, deem an enumeration of houses and population alone sufficient, I shall be happy to have it conducted through the Minister of His Excellency the Rajah with every possible care, and I trust very tolerable accuracy.

3. I shall, in the first instance, have all houses throughout the territory numbered, and registers thereof in Form No. II as given in the Board's instructions for the rural Census taken, in order that none may be omitted. Then both a preliminary house to house and a final one-day enumeration will be conducted in the manner prescribed by the Board for the Census of the rural districts.

SUBMITTED for the orders of Government.

2. The Board think it very desirable that the houses and population of Pudukottah should be enumerated.

ORDER THEREON, 21st March 1872, No. 491.

Miscellaneous.

THE Government desire that Mr. Cadell will carry out his suggestion.

Cholera.

Extract of Letter from the Sanitary Commissioner, to the Inspector General of Police, dated 24th May 1870, No. 560.

"Para 4. Captain Guthrie's account of the introduction of Cholera into Madura and Oslumputty is interesting, and I should esteem it a great favor if Officers of the Police generally would be good enough to assist in furnishing as opportunity occurs authentic data bearing upon the question of the communicability of cholera by travellers and others."

With reference to the above, Officers are requested to communicate to the Sanitary Commissioner any circumstances of special interest on this important subject which may come under their observation.

Inspector General of Police.
