

*Proceedings of the Madras Government, Revenue Department,
26th March 1872.*

No. 332. Read the following letter from G. THORNHILL, Esq., to the Officiating Chief Secretary to Government, Revenue Department, Fort St. George, dated Madras, 25th March 1872 :—

SINCE my arrival at Madras I have received a message from Mr. Harris, Executive Engineer in Ganjam, requesting me to obtain sanction for the appointment of one Sitha Ramiah as an additional Overseer for employment on the Chilka Canal under Mr. Brickwell. I beg, therefore, that sanction for his employment in that capacity may be communicated to Mr. Harris through the Collector of Ganjam, and to the Superintending Engineer by telegraph.

2. I have also heard from Mr. Melville that the line of road from Conada towards Vizianagram, which was ordered to be commenced as a relief work, has been condemned by Mr. Supervisor Baker, and that work on it has been stopped, pending a reference to the Superintending Engineer. Mr. Melville has requested that Captain Beatty may be directed to go over the ground and settle the line finally. The survey of the line, which had been sanctioned, was made by some former Supervisor. It is most desirable that no unnecessary delay should occur in opening work there, where it is wanted more than in almost any part of the district, and I therefore request that instructions may be sent by telegraph to Captain Beatty, with copies to the Superintending Engineer and to the Acting Collector, directing him to lay down the line at once, in communication with the Collector, so that the employment of the people may be no longer delayed.

No. 333. ORDER THEREON, 26th March 1872, No. 533.

Miscellaneous.

ORDERED accordingly that the following telegrams be despatched :—

“ To Collector, Ganjam.

Inform Harris employment of additional Overseer on Chilka Canal Relief Work sanctioned.”

“ To Captain BEATTY, Vizagapatam.

SETTLE line of road from Conada to Vizianagram in communication with Collector at once.”

2. Copies of each message will be telegraphed to the Superintending Engineer at Dowlaishweram, and the second message will be also telegraphed to the Acting Collector, Vizagapatam.

I am about to write

to Fick about his

his of road from

Pentecost 4th to me as
as to know all ready in
can work may be required
from him. I am trying
to say that the Wakes
acting on demand his
kind letters. By his Green
road as at present the
road I have before is
further on than to allow
it mean time work has
been stopped I know
which party to get further
than to go on I must

either a line run for all
as at present it is our
Lutherans work against
another. J. T. Turner
complains that he
can get no work
at Salem & it would
be better run as the other
than to be the count
of labor him, in
fact that he de-
clared for weeks
the supply. It is time
