instant, I have the honour to inform you that the "repairs" alluded to in G. O., No. 976, of 30th June 1870, were those required to *complete** the works provided in an estimate of Rs. 3,210, sanctioned

in G. O., No. 391, of 6th February 1870, for alterations to the Taluq Cutcherry in connection with the subsidiary jail accommodation at that station. The allotment of Rs. 800 applied for was duly provided, (*vide* Public Works G. O., No. 1,689, of 13th July 1870,) and the work was completed in December 1870. The building, as shown in red and yellow on the plan, is the result of such alterations and repairs.

2. Nothing is mentioned of a pandal in G. O., No. 976, of 30th June 1870, as noted in the Proceedings under reply. Sanction for constructing a pandal was applied for in this office letter, No. 123, of 24th May 1870, to accommodate the Jamabundy Cutcherry, as well as the Tahsildar during completion of the repairs to the building. A private dwelling house was afterwards rented for three months, and the pandal was not constructed—*Vide* Revenue Board's Proceedings recorded in Revenue G. O., No. 1,414, of 8th September 1870. What pandal there was at my inspection must have been the usual structure put up in front of the building from "Petty Construction and Repairs."

3. The improvements proposed in the accompanying papers are those required to the building as it now stands after the repairs alluded to in G. O., of 30th June 1870, were carried out.

4. The Board will observe that a very large proportion of this small building is occupied by prisoners and by the Police, leaving inadequate accommodation for the Revenue servants.

5. I am not aware of a new Cutcherry being in contemplation. I simply mentioned that the addition of a tiled verandah proposed would add value to the building in the event of a new Cutcherry being hereafter proposed, which will at any rate be a long time yet to come.

The estimate for erecting a tiled verandah in front of the Collegial Cutcherry, with side walls and new doors into the Tahsildar's room at a cost of Rs. 1,510, will be submitted for the orders of Government.

2. The plan shows that the new accommodation which will thus be provided is urgently required.

3. The building is evidently unfit for a Cutcherry, and it would be better if a new one could be built, but the Board fear that this cannot be done at present.

Sir,

I have the honor to submit an estimate of Rs. 1,510, with a plan showing the improvements proposed to be made in the Salug Cutcherry at Collegal.

2. When I visited the Salug in June last, I found the Cutcherry deficient in accommodation for the Revenue Department: rooms in the Cutcherry have been converted into a jail - in fact it was more of a jail than a Cutcherry. Therefore I requested the Superintending Engineer to estimate for a front extension, by replacing the present leaf Pandal by a tiled one with side walls, and for doors to Tahsildar's room.
