

Proceedings of the Madras Government, Revenue Department,
6th May 1872.

No. 46. Read the following Proceedings of the Board of Revenue, dated 8th April 1872, No. 168-A., R

ABSTRACT.—*Official Price Currents*.—Proceedings regarding their publication on a uniform scale for the Revenue for their information and guidance.

In their Proceedings, No. 537, dated the arrangements they propose to adopt for the returns of prices and to effect the conversion of a standard series. They have only the form forwarded with the above Government. Various grains quoted should be given in English for sake of comparison. They observe for instance Veragoo and Ragi are all species of Millet those parts of the country where they are quoted *Cumboo* are identical species, as well as *Jowár* and *Cholum*.

2. The Honorary Secretary to the Board requested to inform the Board if this is so, as to each of the grains quoted in the list; Jowár Upper India.

3. The Board further observe that the India is likely to mislead, as they presume *arietinum* in the north, whilst in Madras it is *uniflorus* that is quoted.

No. 47. ORDER THEREON, 6th May 1872, No. 730.

Miscellaneous.

2. The heading should state the equivalent (True Extra) (Signed)

To the Board of Revenue.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 8th April 1872.

Read the following Proceedings of the Madras Government, dated 26th January 1872, No. 168-A., Revenue Department :—

ABSTRACT.—*Official Price Currents*.—Proceedings of the Government of India regarding their publication on a uniform system, communicated to the Board of Revenue for their information and guidance.

In their Proceedings, No. 537, dated 6th instant, the Board have described the arrangements they propose to adopt in future to secure more trustworthy returns of prices and to effect the conversion of the local measures into terms of a standard ser. They have only to suggest here, with reference to the form forwarded with the above Government Order, that the names of the various grains quoted should be given in English as well as the Vernacular for the sake of comparison. They observe for instance that Bajra, Jowár, Cholum, Cumboo, Veragoo and Ragi are all species of Millet equally forming the staple food of those parts of the country where they are quoted, and they believe that *Bajra* and *Cumboo* are identical species, as well as *Jowár* and *Cholum*.

2. The Honorary Secretary to the Agri-Horticultural Society will be requested to inform the Board if this is so, and to forward if procurable specimens of each of the grains quoted in the list; Jowar and Bajra being procured from Upper India.

3. The Board further observe that the use of the general term *Gram* for all India is likely to mislead, as they presume it will apply to Bengal gram (*cicer arietinum*) in the north, whilst in Madras it will always be the price of *dolichos uniflorus* that is quoted.
